

Summary of Your Child's Developmental Progress [SAMPLE]

This summary describes your child's developmental progress in achieving four broad desired results for children:

- Children are personally and socially competent.
- Children are effective learners.
- Children show physical and motor competence.
- Children are safe and healthy.

Your child's strengths include:

- Amy has formed friendships with many children in the program. She is willing to listen to others during conflict and tries to provide solutions when asked. Amy has expressed concern for her friends when they are hurt or feeling sad.
- Amy has begun to express interest in attempting to write down her stories, making wavy lines across the paper to look like writing.
- She uses the climbing structure, bikes in the yard, and practices her climbing, running, jumping and galloping.

Areas your child is currently working on:

- Amy is exploring number concepts, counting and quantities to five.
- Amy spends a lot of time drawing or writing symbols for her stories. This is one of the first steps in reading and writing.
- She practices putting on her shoes and socks regularly, requesting assistance when needed.

We can help your child learn and develop by...

In the program

- Providing weekly graphing and matching activities to assist Amy in exploring number concepts, and quantities.
- Providing opportunity and materials for her to build her fine motor skills such as playdough, dressing dolls, and
- Allowing Amy increased opportunity to orally share her ideas in conversation.
- Adding new materials to the outdoor environment that offer Amy more challenging experiences to further develop her motor skills.

At home

- We will read stories to Amy in our home language.
- We will play board games and card games with Amy
