Desired Results Developmental Profile©
(DRDP) Observation Assessment
Instrument

None

State of California Department of Social Services, Copyright 2024

Script:

In this session, participants will learn about the Desired Results Developmental Profile (DRDP).

We will focus on observation skills, rating the DRDP, collecting the DRDP data, the Summary of Findings, and the Child’s Developmental Progress form.

New Administrators	<p style="text-align: right;">3</p> <p style="text-align: center;">We observe...</p> <ul style="list-style-type: none">• As each child interacts with other children, adults, and the environment• In the natural program setting  
Desired Results	<p style="text-align: center;">None</p> <p style="text-align: center;">State of California Department of Social Services, Copyright 2024</p> 

Script:

Teachers observe children in their natural, daily activities. Agencies will be able to describe children’s achievements in learning and development to advocate the strengths and benefits of the program to families and the larger community.

Slide text:

We observe... As each child interacts with other children, adults, and the environment
In the natural program setting

New Administrators	<p style="text-align: right;">4</p> <p style="text-align: center;">And we observe...</p> <p>As children participate in the typical daily program</p> 
Desired Results	<p style="text-align: center;">None</p> <p style="text-align: center;"><small>State of California Department of Social Services, Copyright 2024</small></p> 

Script:

Good observation and recording methods over time are the cornerstones for using the DRDP effectively. The DRDP is not a test, but an observation-based assessment for children.

The person who is the designated teacher should complete the DRDP. Assistants, parents, and other staff should contribute observations.

Note: Family Child Care Networks have a “teacher identified” person complete the DRDP. This person may be the case manager who oversees the network care providers. The case manager consults with care providers and parents in completing the DRDP.

Slide text:

And we observe ... As children participate in the typical daily program

Desired Results	<p>Collected documentation includes:</p> <div style="display: flex; align-items: flex-start;"> <div style="margin-right: 20px;">  </div> <div> <ul style="list-style-type: none"> • Anecdotal notes • Photos • Work samples • Other evidence of knowledge and behaviors </div> </div> <p style="font-size: small; margin-top: 10px;">State of California Department of Social Services, Copyright 2024</p> 

None

Script:

Teachers collect a substantial number of anecdotal notes, photos, work samples, and other pieces of documentation from family members and other staff, that demonstrate the children’s mastered developmental levels. The organization of collected documentation can be achieved through “portfolios.”

Slide text:

Collected documentation includes:

- Anecdotal notes
- Photos
- Work samples
- Other evidence of knowledge and behaviors

New Administrators	<p>6</p> <p>DRDP enables us to...</p>  <p>determine how children are benefiting from programs.</p> <p>State of California Department of Social Services, Copyright 2024</p> 
Desired Results	

None

Script:

The DRDP findings provide information for agencies to use to improve programs.

Information is shared with families during parent conferences to support parents in supporting the child’s progress.

Information can also be shared with the community to demonstrate how children benefit from involvement in the program.

Slide text:

DRDP enables us to...determine how children are benefiting from programs.

New Administrators	<p>7</p> <h2>The DRDP Assists Providers</h2> <p>in meeting each child's developmental needs in each classroom or family child care home.</p> 
Desired Results	<p>State of California Department of Social Services, Copyright 2024</p> 

None

Script:

The DRDP documents the kind of work that quality programs are already doing every day.

As teachers learn more about the children in their care, the DRDP information assists them in adapting and modifying curriculum plans and activities for the individual child, as well as activities for small and large groups.

Slide text:

The DRDP Assists Providers ... in meeting each child's developmental needs in each classroom or family child care home.

New Administrators	<p data-bbox="885 294 901 315">8</p> <p data-bbox="259 325 690 367">The DRDP provides...</p>  <p data-bbox="487 409 803 472">a “snapshot” of the child’s development.</p> <p data-bbox="203 787 714 808">State of California Department of Social Services, Copyright 2024</p> 
Desired Results	

None

Script:

Children grow and change quickly, so a completed DRDP is a “snapshot” (i.e., a representative moment in time) of a child’s development.

All succeeding observations will document changes that result from growth and progress.

New Administrators	<p style="text-align: right;">9</p> <p style="text-align: center;">The DRDP provides a framework for showing children's progress over time</p>  <p style="text-align: center;">State of California Department of Social Services, Copyright 2024</p> 
Desired Results	

None

Script:

Each age-level instrument provides a framework that serves in monitoring children's progress throughout the program year. There are a suite of DRDP instruments:

- DRDP Infant/Toddler View
- DRDP Preschool View
- DRDP SA view and
- DRDP K

Each profile provides guidance in documenting observations that reflect the developmental growth for each age group.

DESIRED RESULTS TRAINING

More details can be found in appendix A of the DRDP assessment.

Direct participants to appendix A and have them read and share about the two columns.

New Administrators	<p>13</p> <h2>Treasure Hunt - Version 1</h2> 
Desired Results	<p>Your group is going on a treasure hunt, looking for answers about the DRDP. Use the FAQs as a resource to answer the questions below. Make sure you note which FAQ you used to answer each question.</p> <ol style="list-style-type: none"> 1. If the program is closed one Friday every month for staff training and cleanup, how do I calculate when that first DRDP is due? 2. Our program likes the Creative Curriculum System. Must we use the CDE proposed curriculum instead? 3. One of the children in my group is amazing! I rated several measures at “integrating Earlier” and she does more than what is at Integrating Earlier. Is this one of those times I use “Emerging” to show she’s emerging to the next level?
<p>State of California Department of Social Services, Copyright 2024</p> 	

None

Activity: Treasure Hunt

Your group is going on a treasure hunt, looking for answers about the DRDP. Use the FAQs as a resource to answer the questions below. Make sure you note which FAQ you used to answer each question.

1. If the program is closed one Friday every month for staff training and cleanup, how do I calculate when that first DRDP is due?
2. Our program likes the Creative Curriculum System. Must we use the CDE proposed curriculum instead?
3. One of the children in my group is amazing! I rated several measures at “integrating Earlier” and she does more than what is at Integrating Earlier. Is this one of those times I use “Emerging” to show she’s emerging to the next level?

New Administrators	<p style="text-align: right;">14</p> <h2 style="text-align: center;">DRDP Guidelines</h2> <p>An age-appropriate version of the DRDP must be completed within 60 calendar days of the child’s enrollment and every six months thereafter.</p>
Desired Results	<div style="display: flex; align-items: center;"><p>60 calendar days and every 6 months thereafter</p></div> <p style="font-size: small; margin-top: 20px;">State of California Department of Social Services, Copyright 2024</p> 

None

Script:

In CDSS funded programs an age-appropriate version of the DRDP must be completed for all children enrolled in a California state-funded center or family child care home network.

In CDE funded programs

Trainer Note:

Clarify how often and when DRDPs are required to be completed. In CDSS programs Emphasize 60 calendar days from the enrollment date of children. Enrollment is typically determined to be the first date the child receives care.

Teachers and staff need to be familiar with the DRDP

**SESSION 3: DRDP
Handout**

New Administrators	<p style="text-align: right;">16</p> <p style="text-align: center;">The DRDP was developed by the:</p> <ul style="list-style-type: none">• California Department of Education, Child Development Division (now Early Education Division)• WestEd Center for Child & Family Studies• University of California, BEAR Center
Desired Results	<p><i>with valuable input from teachers and directors who participated in the research study</i></p> <p style="text-align: center;"><small>State of California Department of Social Services, Copyright 2024</small></p> 

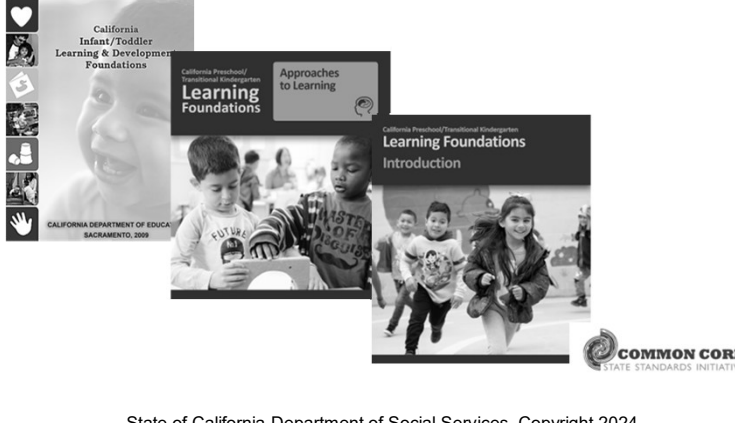

None

Script:

WestEd and BEAR aligned the instruments and developed new measures.

BEAR provided overall direction for the study and summarized the data.

BEAR is the Berkeley Evaluation and Assessment Research Center.

New Administrators	<p style="text-align: right;">17</p> <h2 style="text-align: center;">DRDP Alignment</h2>  <p style="text-align: center;">State of California Department of Social Services, Copyright 2024</p>
Desired Results	

None

Script:

The DRDP aligns with the:

- Infant and Toddler Early Learning and Development Foundations
- Preschool Learning Foundations
- Common Core Standards
- Head Start Child Development and Early Learning Framework

Now let's look at the instrument in more detail...

New Administrators	<p>18</p> <h3>Build a Tower</h3> <ul style="list-style-type: none">• Use the items on your table.• As a group, build a tower.• You have five minutes. 
Desired Results	<p>State of California Department of Social Services, Copyright 2024</p> 

None

Script:

Refer to DR-2015 Activity Sheet #3 – Build a Tower.

Have participants build a tower using any accessible material (cups, blocks, paper, etc.).

Slide Text:

Use the items on your table.

As a group, build a tower.

You have five minutes.

New Administrators	<p style="text-align: right;">19</p> <h2 style="text-align: center;">Key Points</h2> <ul style="list-style-type: none">• What was your first step?• How did you know to start there?• What does this have to do with children’s learning?
Desired Results	<p style="text-align: center;">State of California Department of Social Services, Copyright 2024</p> 

None

Script:

(This is the debrief slide.)

The purpose of the activity is to make a connection between having a foundation in order to support a structure. For us, that structure is children’s learning. Our foundation is our California Preschool and Infant Toddler Learning and Development Foundations. These are important first steps in understanding child development and understanding the skills that children are capable of.

Slide Text:

Key Points

What was your first step?

How did you know to start there?

What does this have to do with children’s learning?

New Administrators	<p>Why was it important to align the DRDP to the foundations? ²⁰</p> <p>To ensure we assess what we want children to learn and that it is aligned to what is appropriate for children of this age.</p>
Desired Results	 <p>State of California Department of Social Services, Copyright 2024 </p>

None

Script:

The state has taken care to build a cohesive system.

The foundations describe children’s learning and development.

Thus it is important that we are assessing what we want children to learn, and that we align it to what is appropriate for children of this age.

New Administrators	<p style="text-align: right;">21</p> <p style="text-align: center;">What is the relationship between the DRDP and the foundations?</p> <ul style="list-style-type: none"> • The foundations tell us how children, with adequate support, typically learn and develop. • The DRDP provides a structure and a tool for recording an individual child’s development and documenting progress. • All volumes of the California Learning and Development Foundations provide the research backing for the DRDP (2015).
Desired Results	<p style="text-align: center;">None</p> <p style="text-align: center;">State of California Department of Social Services, Copyright 2024 </p>

Script:

The developmental domains work in an integrated fashion to support all four Desired Results. Ways to use the foundations and DRDP together:

Read foundations at the beginning of the school year to understand development in a general way.

Complete the DRDP twice each year to see children’s progress.

Foundations provide the overall developmental landscape or backdrop. The DRDP helps determine where an individual child is on that backdrop.

New Administrators

A Full Continuum Assessment

State of California Department of Social Services, Copyright 2024

None

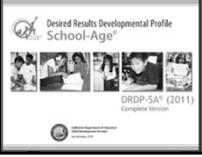

Script:

The DRDP is a full continuum assessment. The same assessment is used for all children, including children with IFSPs and IEPs. There is one assessment and there are five views of this assessment. The measures, however, are the same. This means that ATL-REG 1 is the same measure in all views. The difference is the number of measures in the different views.

- Infant/Toddler Comprehensive View has 5 domains and 29 measures.
- Infant /Toddler Essential View 5 domains and 21 measures.
- Preschool Comprehensive View has 8 domains and 56 measures, 10 of those measures are conditional.
- Preschool Fundamental View has 6 domains with 43 measures, thirteen of those measures are conditional.
- Preschool Essential View has 6 developmental sub domains and 29 measures

The fundamental view only pertains to preschool aged children. The essential views of the assessment do not meet special education requirements.. Agencies choose which view will be used to assess children.

To learn about what adaptations a child with an IFSP or IEP needs please collaborate with the child's service providers.

New Administrators	<p style="text-align: right;">23</p> <h2 style="text-align: center;">DRDP School-Age</h2> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  <p>• 6 domains • 31 measures</p> </div> <div style="text-align: center;">  <p>• 2 domains • 13 measures</p> </div> </div> <p style="text-align: center; font-size: small;">State of California Department of Social Services, Copyright 2024</p> 
Desired Results	<p>None</p>

Script:

Programs may use either the DRDP-SA© (2010) Simplified Version or DRDP-SA© (2010) Complete Version.

Use the DRDP-SA© (2010) with school-age children from kindergarten through 12 years old, including those who have an individualized education program (IEP).

DRDP SA has two versions to choose from:

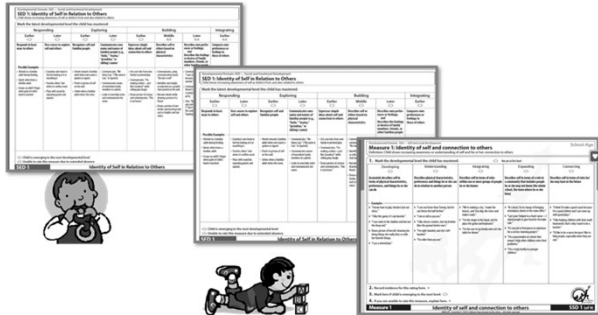

- DRDP–SA complete version which has all 35 measures
- DRDP-SA© (2010) simplified version, which has 2 domains with 13 measures.

The DRDP-SA©(2010) was simplified because the other areas were already being assessed during the school day (e.g., reading, math, etc.). The state of California felt it was still important to assess Self and Social Development as well as Health and Safety.

Example

SED 1: Identity of Self in Relation to Others

Child shows increasing awareness of self as distinct from and also related to others.

Mark the latest developmental level the child has mastered:

Responding		Exploring		Building			Emerging
Earlier	Later	Earlier	Later	Earlier	Middle	Later	Earlier
<p>Responds in basic ways to others</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Attends to familiar adult during feeding. Quits when hears a familiar adult. Grabs an adult's finger when palm of child's hand is touched. 	<p>Uses senses to explore self and others</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Examines own hand or feet by looking at it or smelling it. Touches others' hair when it is within reach. Plays with mouth by repeating words and sounds. 	<p>Recognizes self & familiar people</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Identifies himself or herself when own name spoken or signed. Points to picture of self on the wall. Smiles when a familiar adult enters the room. 	<p>Communicates own name and names of familiar people (e.g., "dada," "mama," "gracias," or sibling's name)</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Communicates, "Ma Ma," "Dada," "My name is [child's name]." Identifies names like family members (e.g., "mama," "dada," "brother"). Identifies sister or brother. 	<p>Expresses simple ideas about self and connections to others</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Acts and reacts from own family or pretend play. Communicates, "The walking machine—got like Grandma!" while rolling play dough. Draws picture of a house and communicates, "This is my house." 	<p>Describes self or others based on physical characteristics</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Communicates, using communication board, "This hair is red!" Identifies own height, as indicated on a growth chart posted on the wall. Narrates details while drawing a picture of a friend. Draws a picture of own family, representing traits such as height and hair color. 	<p>Describes own preferences or feelings and describes the feelings of others</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Communicates, "I was mad because we didn't go outside." Communicates that a friend is happy because he is going to have a birthday party. Says, "Thinking banana is my food. No I eat it all." ("I don't want to touch the wall. It came out," in English). 	<p>Compares own preferences or feelings to those of others</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Signifies when selects a size scarf for self. Communicates to a peer that they both like peanut butter and jelly sandwiches. Communicates, "我愛吃冰淇淋，但我不能吃。" ("I love to eat ice cream, but I can't eat it.")

Child is emerging to the next developmental level

These are the four components of the DRDP – the 4 Ds.

Trainer Note:

Review the 4 Ds and emphasize that reading these components can assist staff in knowing the intent, or purpose, of each measure.

- The domain represents a crucial area of learning and development for children.
- The definition specifies the aspect of development that is being observed.
- The descriptor describes observable child behaviors associated with that developmental level.
- The developmental levels for each measure represent a developmental continuum.

None

Script:

The state of California requires programs to use the DRDP for assessment as a motivator. The real reason we use observation is to get to know children.

Through observation, we get to know how children learn best, their strengths, need for support materials, and language. In addition, it helps teachers plan engaging activities to help children progress in their development.

Observation is a skill that can be learned and gets easier with practice. The observations we make should provide good information to inform our ratings on the DRDP.

The next activity will assist in writing meaningful anecdotal notes.

New Administrators	32
Desired Results	<h2 style="text-align: center;">Develop Methods for Recording Observations and Collecting Evidence</h2> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;">     </div> <div> <ul style="list-style-type: none"> • Anecdotal records • Photographs • Audio and video records • Running records • Sketches • Work samples • Daily logs • Frequency counts </div> </div> <p style="font-size: small; margin-top: 10px;">State of California Department of Social Services, Copyright 2024</p> 

None

Script:

Before teachers can rate the DRDP, they need to collect relevant information about the children.

Once teachers know the “what”, “when,” and “how,” they are ready to plan to observe, record, and collect evidence on children’s typical behaviors.

Teachers and staff can collect a wide variety of documentation, such as anecdotal notes, work samples, frequency count sheets, and photos to provide evidence of mastered developmental levels across all of the measures.

Enlist all teachers, support staff, and parents to contribute documentation for the children’s portfolios. We know that teachers who are successful in implementing an observation-based assessment, plan for observations.

Trainer Note:

Remind participants to look at the gallery during breaks for samples.

One of the first steps is to enter children into the DRDP Online system.

The Child Record will need to be completed for all children.

Ensure that the date of assessment is within 60 days of the child's enrollment.

Administrators can edit the information page when necessary in DRDP Online.

A tutorial, Steps to Completing the DRDP, is available on the Desired Results website.

Micro learning videos are available on YouTube.

New Administrators	38
<p>LOOK to the 4 Ds: <i>Domains, definitions, developmental levels, and descriptors to clarify the intent of each measure.</i></p>	
<p>State of California Department of Social Services, Copyright 2024</p>	

None

Script:

One of the first steps is to become familiar with the components of the assessment.

The 4 Ds of the DRDP assessment instrument are crucial to helping staff clarify the intent, or purpose, of each measure.

- The domain represents a crucial area of learning.
- The definition specifies the aspect of development that is being observed.
- The developmental levels represent a developmental continuum. Each level specifies a point along the developmental continuum.
- The descriptors provide the behaviors and/or skills you must see the child demonstrating with mastery to rate at that developmental level.

A Deeper Look at the Descriptors

Each developmental level has a **descriptor** that defines the behaviors that would be observed if a child were at that developmental level.

None

Developmental Domain: COG — Cognition, Including Math and Science
COG 3: Number Sense of Quantity
Child shows developing understanding of number and quantity.

Mark the latest developmental level the child has mastered:

Responding		Exploring		Building		Integrating	
Earlier ↳	Later ↳	Earlier ↳	Later ↳	Earlier ↳	Middle ↳	Later ↳	Earlier ↳
Responds to people or objects in basic ways	Responds to changes in the number of objects observed or interacted with	Demonstrates awareness of quantity	Uses number names, but not always correctly, in situations related to number or quantity	Identifies small quantities without counting, up to three	Counts up to five objects using one-to-one correspondence; and Recites numbers in order, up to five	Shows understanding that the last number counted is the total number of objects in the group	Solves simple everyday problems involving numbers by counting up to 10 objects using one-to-one correspondence; and Recites numbers correctly, up to 20
Possible Examples							

Descriptor

Developmental Domain: COG — Cognition, Including Math and Science
COG 3: Number Sense of Quantity
 Child shows developing understanding of number and quantity

Mark the latest developmental level the child has mastered:

Responding		Exploring		Building			Integrating
Earlier	Later	Earlier	Later	Earlier	Middle	Later	Earlier
Responds to people or objects in basic ways	Responds to changes in the number of objects observed or interacted with	Demonstrates awareness of quantity	Uses number names, but not always correctly, in situations related to number or quantity	Identifies small quantities without counting, up to three	Counts up to five objects using one-to-one correspondence; and Recites numbers in order, one through ten	Shows understanding that the last number counted is the total number of objects in the group	Solves simple everyday problems involving numbers by counting up to 10 objects using one-for-one correspondence; and Recites numbers correctly, up to 20
Possible Examples							

If the descriptor has ; followed by **and**, the child must demonstrate all the behaviors, but not necessarily during the same observation.

BUT

State of California Department of Social Services, Copyright 2024

Script:

The language inside the descriptors is very important.

If the descriptor has a ; AND the child must demonstrate all the behaviors, but not necessarily during the same observation.

For example, if the descriptor says walk; and skips, the child needs to exhibit both behaviors. He could walk today and skip tomorrow.

When the Descriptor Says AND

Developmental Domain: COG -- Cognition, Including Math and Science							
COG 7: Shapes							
Child shows an increasing knowledge of shapes and their characteristics							
Mark the latest developmental level the child has mastered:							
Responding		Exploring		Building			Integrating
Earlier	Later	Earlier	Later	Earlier	Middle	Later	Earlier
	There are no earlier levels for this measure	Explores shapes of objects	Manipulates objects based on shape	Matches similar shapes and distinguishes them from dissimilar shapes and those	Identifies or names several shapes in the environment (e.g., circles, squares,	Recognizes shapes when they are presented in different orientations or as	Describes several shapes and the differences between them

If the descriptor says **and**, then the child must be able to demonstrate all of the behaviors during the same observation.

State of California Department of Social Services, Copyright 2024

None

Script:

But if the descriptor says AND, then the child must demonstrate all the behaviors during the same observation.

For example, if the descriptor says, “walk AND skip,” the child needs to walk and skip in the same observation.

DESIRED RESULTS TRAINING

SESSION 3: DRDP Handout

42

None

Refer to Activity Sheet #6 – A Deeper Look at the Descriptors

Script:

Now we are going to practice.

It’s important to understand what the descriptors are asking you to observe. As you read the descriptor think about what skills you are looking for. Are they asking you to observe a specific skill? Are they asking you to observe the child displaying more than one skill? Read through each descriptor for each measure and circle the ORs, highlight the ;ANDs, and underline the AND in the descriptors.

Turn to COG 3 and COG 7 and circle the ORs, highlight the ;ANDs, and underline the AND in the descriptors (only in descriptors).

Now that we are done, turn to COG 3. How many ORs did you find? How many ;ANDs? How many ANDs?

Trainer note: Repeat this for COG 7.

DRDP (2015) - Developmental Checklist from Early Warning to Kindergarten Entry - Prechecked Item - August 11, 2015 © 2015 California Department of Education. All rights reserved. Page 7 of 18

New Administrators
Desired Results

Script:

Not yet at the earliest developmental level means that you do not see mastered skills or behaviors that would allow you to mark the first developmental level.

Note that the not yet at earliest developmental level bubble is not available in the infant/toddler instrument because that instrument begins with the reflexive stage which children typically evidence at birth.

Unable to Rate

None

Developmental Domains: ATL-REG - Approaches to Learning: Self-Regulation
ATL-REG 7: Shared Use of Space and Materials
 Child develops the capacity to share the use of space and materials with others

Mark the latest developmental level the child has mastered:

Responding		Exploring		Building			Integrating
Earlier	Later	Earlier	Later	Earlier	Middle	Later	Earlier
There are no earlier levels for this measure.	Demonstrates preference for a few specific toys or materials	Takes and plays with materials of interest, even when they are being used by another child	Shows awareness that other children might want to use materials, but will avoid adult requests to share, unless he/she requests to share preferred materials with other children	Maintains control of some preferred materials, allowing others to use the item, but will avoid adult requests to share preferred materials with other children	Keeps a journal or portfolio of some preferred materials, allowing others to use the item, but will avoid adult requests to share preferred materials with other children	Follows expectations or procedures for sharing, most of the time, without adult prompting	Offers to share space or materials with others in the absence of explicit expectations for sharing
Possible Examples	<ul style="list-style-type: none"> Chooses to play with doll with her best friend every day. Chooses to play with the same toy because every day. Says the green number one from when at the arcade. 	<ul style="list-style-type: none"> Takes another child's toy and comes separately to the other child's pocket. Plays on a playground after another child put a stone repeatedly in his something else. Agrees to let another child take a toy from the other child's container box. 	<ul style="list-style-type: none"> Keeps all of the crayons in one container, even if one or two are missing. Comments: "It's mine," "It's mine," "It's mine," when another child reaches for a red crayon. Plays favorite with another child at the arcade, making it difficult for the other child to continue the play. 	<ul style="list-style-type: none"> Keeps all of the crayons in one container, even if one or two are missing. Comments: "It's mine," "It's mine," "It's mine," when another child reaches for a red crayon. Plays favorite with another child at the arcade, making it difficult for the other child to continue the play. 	<ul style="list-style-type: none"> Keeps a journal or portfolio of some preferred materials, allowing others to use the item, but will avoid adult requests to share preferred materials with other children. Keeps favorite crayons nearby and pushes the basket of other colored crayons to the center of the table. Let another child take a book from table nearby, but holds onto the book nearby. 	<ul style="list-style-type: none"> Comments to another child: "That's mine, please give it to me." "I got it from you," while getting ready for story time. Gets talking to another child about the book. Comments: "It's my book, please give it to me." "I got it from you," while getting ready for story time. Pushes a waiting list when waiting to be seated at the computer, after another child has been seated. 	<ul style="list-style-type: none"> Offers to share space or materials with others in the absence of explicit expectations for sharing. Brings a report report to another child while getting ready for story time, without being asked. Makes room for another child who wants to join in building a sandcastle and child to add. Has a conversation about to ask another child to give a waiting a seat.

Child is not yet at the earliest developmental level on this measure.
 Child is emerging to the next developmental level.
 Unable to rate this measure due to extended absence.

ATL-REG 7 Shared Use of Space and Materials ATL-REG 7

Script:

In the rare circumstance that you are unable to rate a child on a specific measure, explain in detail the reason for a lack of rating in the box at the bottom of the page.

Unable to rate is only used for extended absences.

Conditional Measures

None

Developmental Domain: SEL - Approaches to Learning: Self-Regulation		Conditional Measure	
ATL-REG 2: Self-Comforting			
Mark the latest developmental level the child has mastered:			
Responding		Exploring	
Earlier	Later	Earlier	Later
Responds to internal or external stimulation in basic ways	Engages in behaviors that have previously worked to successfully self-regulate	Comforts self by seeking a familiar adult or a special thing	Comforts self by the different ways, based on the situation
<ul style="list-style-type: none"> Child reaches for items and self. Child uses self-soothing strategies such as hand rubbing, hugging, or special things. 	<ul style="list-style-type: none"> Child reaches for a familiar adult or another child to regulate when distressed. 	<ul style="list-style-type: none"> Child looks for a familiar adult or a special thing to self-regulate. Child looks for a familiar adult to be present after a parent or caregiver leaves. 	<ul style="list-style-type: none"> Child uses self-protective strategies to get away from a situation. Child uses self-protective strategies to get away from a situation.
Possible Examples		Possible Examples	
<ul style="list-style-type: none"> Child reaches for a familiar adult or another child to regulate when distressed. 		<ul style="list-style-type: none"> Child looks for a familiar adult to be present after a parent or caregiver leaves. 	

Child is emerging to the next developmental level
 Child is not able to master this measure due to extended absence

On Intro 10, question #13 gives directions on when to use the ELD measures.

If a language other than English is spoken in the child's home, the ELD measures must be completed for preschool age children.

The Developmental Levels for ELD

None

Developmental Domains ELD – English Language Development					Conditional Measure
ELD 2: Self-Expression in English (Expressive English)					<input type="checkbox"/> The measure is not used in English if the self-language spoken in the child's home
Mark the latest developmental level the child has mastered:					
Discovering Language	Discovering English	Exploring English	Developing English	Building English	Integrating English
<p>Does a few "free words" or word-like sounds or gestures by themselves in home language</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Asks for food when hungry, by using a vocal sound, word, or gesture for food. Communicates from child's home language. "Mama," "Dada," or other word approximations. Reaches for an object for an object. 	<p>Communicates in home language or nonverbally in both</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Takes an adult's arm and points to adult to the dining area, when seated at table in dining, and reaches for proteins toward the plate on table. Says, "Yes," and responds in home language or gestures to simple questions such as, "Do you want milk?" while an adult feeds via pitcher of milk. Communicates "I need more" or "I am done with you" in Spanish when requesting a pour while playing. Communicates "I [see] [it] [is] [red]." This is done before, as observed when playing with the parents under a blanket in the dramatic play area. 	<p>Communicates to meet comprehensively in home language, occasionally using single words or short nonverbal approximations of words in English</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Communicates in English, "Yes," to a parent when looking at the end of the table. Greets peers in home language and joins in songs the words "Yes" meaning "in English during the daily morning song." Shows to with, "The end!" in English when an adult finishes making a story to read group of children. 	<p>Communicates in English using single words and nonverbal gestures (e.g., pointing) in English with home language)</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Communicates in English, "Mama," to ask for a mother from a peer when playing recess in the dramatic play area. Communicates in English, "Yes," to a parent, "I found shoes," when playing. Communicates to a peer in English, "Yes," and gestures to the side during middle play. Communicates, "The dog [is] [red]." ("The dog barked a lot," in English and Chinese while helping to read a story on a colored dog in the dramatic play area. 	<p>Communicates in English using sentences that may be intelligible (may contain grammatical errors and may mix English with home language)</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Communicates to peers while playing with play dough, "I made pictures!" "I don't get the glue!" "I don't make and hold, do you like it?" Communicates to a peer in English, "Can't I have you?" ("Can't I call you?" and "I will be the parent to you?") while playing with play dough, when child takes a specific action not of play. Communicates in English, "The table is so heavy!" "The table is so heavy!" when describing a table top in painting area that someone did not understand. Communicates to peers, "We had milk a cup," "My dad ate," in English. "Yes," in Chinese, while attempting to draw a horse. 	<p>Communicates in English, often using complete sentences, about a variety of social and instructional concepts and topics (may contain grammatical errors and may mix English with home language)</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Communicates in English, "This is happy new year. This is happy and do for me on the stage," in response to an adult asking, "Tell me about your party?" Communicates to a peer, "I can handle it like you," in Spanish. The teacher says fully control the game "I can't in Spanish and we get done at 10 minutes." The child says "in Spanish." Communicates in English, "The things in that room, when drawing some smaller table with play dough into play area, and peer joins "I made a table," in a play area and communicates, "There is a table in play," while handling it in a play area.
<input type="checkbox"/> Child is emerging to the next developmental level <input type="checkbox"/> Unable to rate this measure due to extended absence

Assessing Children Who Are Dual Language Learners

62

State of California Department of Social Services, Copyright 2024

None

Script:

In the folder is the handout Assessing Children Who are Dual Language Learners, which explores code switching.

Give teachers time to read the handout (8-10 minutes) and circle what is important to them.

Ask, "What are some things that stood out to you from the handout?"

Use chart paper to chart responses about code switching.

New Administrators	<p style="text-align: right;">63</p> <h2 style="text-align: center;">Code Switching</h2> <ul style="list-style-type: none">• Typical of dual language development• Use of multiple languages in one conversation• Uses grammatical rules of each language (at the 3- and 4-year-old level of course!)• Influenced by context and purpose
Desired Results	<p style="text-align: center;">State of California Department of Social Services, Copyright 2024</p> 

None

Script:

What we observed the children doing is code-switching. What is code-switching?

- Typical of dual language development
- Use of multiple languages in one conversation
- Uses grammatical rules of each language (at the three- and four-year-old level of course!)
- Influenced by context and purpose

New Administrators	<p style="text-align: right;">64</p> <h2 style="text-align: center;">Key points for LLD & ELD</h2> <ol style="list-style-type: none"> 1. LLD is used with all children to measure progress in their home language. 2. ELD is used with any child where a language other than English is spoken in the home.
Desired Results	<div style="text-align: center;">  </div> <p style="font-size: small;">State of California Department of Social Services, Copyright 2024</p> 

None

Script:

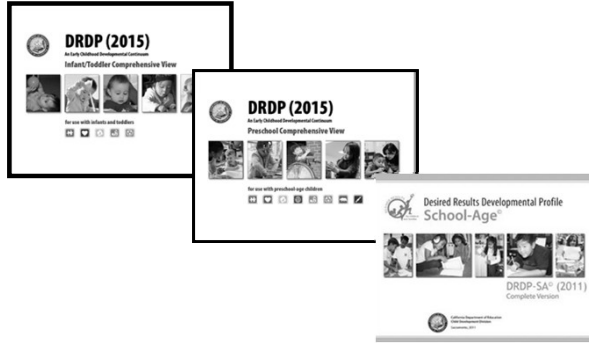

The Language and Literacy Development measures are used to assess progress in developing foundational language and literacy skills. These measures are used with all children. Children who are dual language learners may demonstrate mastery in their home language, in English, or both. This is true not only for Language and Literacy Development but for all other domains as well, except for the English Language Development domain.

The four English-Language Development measures are used to document and assess progress in learning to communicate in English. These four measures are used if a language other than English is spoken in the child’s home.

Communication in all languages the child uses should be considered when collecting documentation and completing the measures in all domains.

Refer to Intro 6 and the appendices for more information on Assessing Dual Language Learners.

DRDP data is compiled by...

- Individual child
- Classroom
- Contract
- DRDP Online
- Commercial software programs

State of California Department of Social Services, Copyright 2024

None

Script:

Data on the DRDP is collected first at the individual child level, then at the classroom level, and then compiled at the contract level.

DRDP Online provides an online system of tools for summarizing DRDP data.

Although the individual child and classroom data is kept on site and is not sent to CDSS, it will be reviewed during your CPM/CMR. This data is also compiled and used to complete the Program Action Plan.

New Administrators	<p style="text-align: right;">72</p> <h3 style="text-align: center;">What is DRDP Online?</h3> <ul style="list-style-type: none">• An online data entry system• An easy way to compile information about your students• Tool for printing out summary reports
Desired Results	<p style="text-align: center;">State of California Department of Social Services, Copyright 2024</p> 

None

Script:

Teachers can complete the DRDP assessment using the DRDP Online system, via the internet using a password and username. The system allows for automatic storage of DRDP data. It also allows programs to be completely paperless when completing the assessment. The data entry system compiles all the data and provides multi level summary reports by student, or by group, and even subgroup that can be shared with families and administrators.

Child Reports

None

New Administrators

Desired Results

The image shows two pages of a child report. The left page is titled 'Aileen's Development This Year' and the right page is 'Natasha's Developmental Progress'. Both reports use a grid system to track developmental progress across different domains over time. The domains include Learning Self-Regulation, Social and Emotional Development, Language and Literacy Development, and Math. Each domain has a progress bar and a brief description of the skills involved. The reports are dated Spring 2018 and Fall 2018.

Script:

The child development this year report, shows the child's overall developmental level in each separate domain. Child Report– provides psychometrically valid domain level information for individual children. Teachers can use this information to visually see where children are strong in their development and where they may need additional support.

Psychometric measurement is how the DRDP Online system calculates the correct distances of growth from one developmental level to the next.

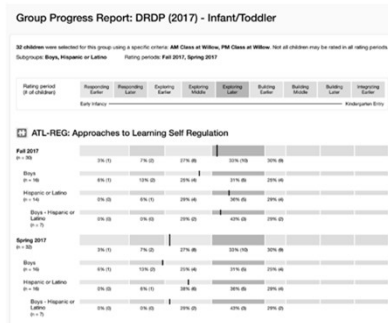

“The Parent Report provides information from the DRDP assessment about your child’s knowledge, skills, and behaviors across a range of areas of development, called domains” (Parent Report Guidance for Teachers, California Department of Education).

The parent report does not specify the strengths or the areas of growth for children, it provides generic statements in the box that are helpful. But teachers must add to the boxes to individualize the information for that specific child.

Parent reports should be discussed with families, not just printed and handed out. DRDP-75

Group Report

None

State of California Department of Social Services, Copyright 2024

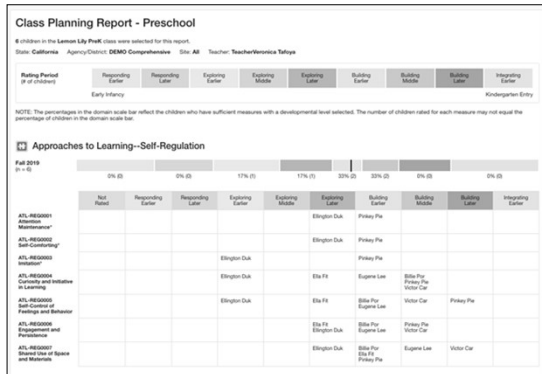

Script:

The Group Progress Report provides information on one rating period for an agency, program, site or classroom. The Group Cohort Report will show subgroup data along with the overall group data. The data will be available for all the domains completed by the program.

Teachers may use this information in their classroom to provide specific strategies to meet the needs of their groups. Administrators may use the Group Report to analyze data across the program and use the information to provide professional development or make changes for program improvement.

Class Planning Report

State of California Department of Social Services, Copyright 2024

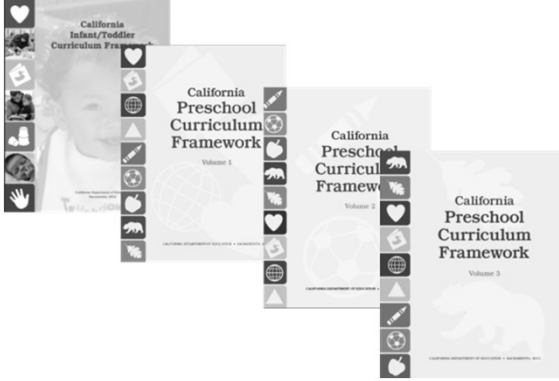

None

Script:

The Class Planning Report helps teachers to modify instructional planning and meet individual needs.

Each report has the domain score of the specific domain at the top with numbers and percentages. Below that bar are all the measures within that domain and where each individual child was rated for each measure.

Script:

Programs are required to summarize the data both at the classroom and contract level to determine key findings and action steps. These are trends or main points that require action. Think about where teachers want to see change or progress for the children in their class based on their data. Where will you put time, energy, and resources to see change?

Trainer note:

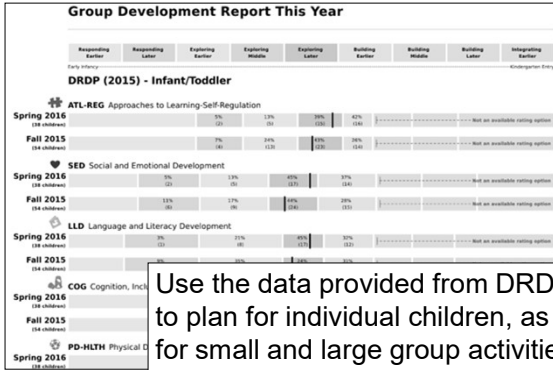

After sharing, ask participants to view the sample DRDP Classroom Summary of Findings.

These findings will inform administrators and guide them in making continuous program improvements.

California state consultants will be checking the DRDP Classroom Summary of Findings forms to make sure programs are using the data to inform the “continuous improvement” process.

Small and Large Group Planning

None

Use the data provided from DRDP Online to plan for individual children, as well as for small and large group activities.

Script:

This is one example of what the data may look like. This is a Progress this Year report. In your classroom or agency planning process, you would look at the DRDP data that is provided through your DRDP Online reports to support planning for the groups of children in your own classroom.

Treasure Hunt - Version 1

Your group is going on a treasure hunt, looking for answers about the DRDP. Use the FAQs as a resource to answer the questions below. Make sure you note which FAQ you used to answer each question.

1. If the program is closed one Friday every month for staff training and cleanup, how do I calculate when that first DRDP is due?
2. Our program likes the Creative Curriculum System. Must we use the CDE proposed curriculum instead?
3. One of the children in my group is amazing! I rated several measures at "integrating Earlier" and she does more than what is at Integrating Earlier. Is this one of those times I use "Emerging" to show she's emerging to the next level?

State of California Department of Social Services, Copyright 2024

13

14

DRDP Guidelines

An age-appropriate version of the DRDP must be completed within 60 calendar days of the child's enrollment and every six months thereafter.

60 calendar days and every 6 months thereafter

State of California Department of Social Services, Copyright 2024

14

15

Teachers and staff need to be familiar with the DRDP

State of California Department of Social Services, Copyright 2024

15

New Administrators	<p>The DRDP was developed by the:</p> <ul style="list-style-type: none"> • California Department of Education, Child Development Division (now Early Education Division) • WestEd Center for Child & Family Studies • University of California, BEAR Center <p><i>with valuable input from teachers and directors who participated in the research study</i></p>	16

Developmental Level

Example

SED 1: Identity of Self in Relation to Others

Mark the latest developmental level the child has mastered:

Responding		Exploring		Building		Mastering	
Earlier	Later	Earlier	Later	Earlier	Middle	Later	Earlier
Responds to basic requests in various ways	Some requests in response and action	Recognizes self and family people	Communicates own name and names of familiar people (e.g., "Mama," "Daddy," "Teacher," "Grandma")	Expresses simple ideas about self and connection to others	Describes self or others by name or physical characteristics	Describes own gender, race or heritage and identifies the feelings of others	Compares own performance or feelings to those of others
Possible Examples: - Asks to handle with toy/shovel - Spins wheel on a toy car - Grabs an adult's finger when asked to hold hand - Reaches for a toy	- Spontaneously holds up toy/shovel - Spins wheel on a toy car when it will roll - Grabs an adult's finger when asked to hold hand - Reaches for a toy	- Shows interest in family people - Responds to name - Responds to name of family people - Responds to name of family people - Responds to name of family people	- Communicates own name and names of familiar people (e.g., "Mama," "Daddy," "Teacher," "Grandma") - Shows interest in family people - Responds to name - Responds to name of family people - Responds to name of family people	- Expresses simple ideas about self and connection to others - Shows interest in family people - Responds to name - Responds to name of family people - Responds to name of family people	- Describes self or others by name or physical characteristics - Shows interest in family people - Responds to name - Responds to name of family people - Responds to name of family people	- Describes own gender, race or heritage and identifies the feelings of others - Shows interest in family people - Responds to name - Responds to name of family people - Responds to name of family people	- Compares own performance or feelings to those of others - Shows interest in family people - Responds to name - Responds to name of family people - Responds to name of family people

Child is emerging to the next developmental level

Child is ready to take this measure due to unmet need

45

46

Developmental Level Activity

Where are you in your development ... as a cook?

State of California Department of Social Services, Copyright 2024

46

47

HLTH 10: Cooking

Mark the latest developmental level the adult has mastered:

Responding		Exploring		Building		Integrating	
Earlier	Later	Earlier	Later	Earlier	Later	Earlier	
Responds to the smells of food	Uses multiple senses to explore food	Watches cooking shows	Eats food prepared by others	Heats pre-made food	Prepares simple meals and follows simple recipes	Prepares complex meals from scratch	Prepares the newest cuisines from around the world on a weekly basis
Examples • Says, "What smells good?"	• Adds to taste all samples at Center	• Saves recipes for Mom to use	• Uses the "Move-Over" at least 3 times per week	• Heats frozen meals	• Makes spaghetti and a salad	• Prepares 1 course meals	• Graduated from Gordon-Bruce and is Top Chef at a 3 Star restaurant.

☐ Adult is emerging to the next developmental level
 ☑ If you are unable to rate this measure, explain here.

MB 21-13

This Management Bulletin (MB) provides information and guidance to CSPP contractors related to meeting the program quality requirements of the CSPP contract and any flexibilities allowed due to the ongoing impacts of the COVID-19 pandemic.

Early Learning and Care Division

Subject: Guidance on Implementation of the California State Preschool Program Quality Requirements During the COVID-19 Pandemic

Number: 21-13

Date: September 29, 2021

Expires: June 30, 2022

Authority: California Education Code (EC) and California Code of Regulations, Title 5 (5 CCR)

Attention: Executive Directors and Program Directors of California State Preschool Programs (CSPP)

Purpose

This Management Bulletin (MB) provides information and guidance to CSPP contractors related to meeting the program quality requirements of the CSPP contract and any flexibilities allowed due to the ongoing impacts of the COVID-19 pandemic.

Policy

Contractors operating a CSPP must adhere to the program quality requirements of the CSPP contract for children, families, and staff, pursuant to California *Education Code (EC)* Section 8203 and *California Code of Regulations*, Title 5 (5 CCR) sections 18270.5 through 18281, and to staffing ratios requirements pursuant to 5 CCR sections 18290 through 18292.

In accordance with MB 21-11, CSPP contractors are required to submit a distance learning plan and offer distance learning services for enrolled children and families who are unable to receive in-person services when the CSPP is required to close, or limit group sizes due to written local or state public health orders or guidance related to the COVID-19 pandemic and specific to early education or childcare. CSPP contractors must continue to meet the program quality requirements of the CSPP contract when providing distance learning services, as specified below.

Implementation

Developmental Profile Requirements

All CSPP contractors are required to conduct the age-appropriate Desired Results Developmental Profile (DRDP) for each child who is enrolled in the program for at least 10 hours per week. If a child has a disability, and/or has an Individualized Education Program (IEP), the DRDP must be completed even if the child is enrolled for less than 10 hours per week, and must be completed with any necessary accommodations and adaptations.

For Fiscal Year (FY) 2021–22, CSPP contractors may use the Modified Essential View of the DRDP, and the California Department of Education (CDE), Early Learning and Care Division (ELCD) will allow contractors up to 90 days from the time of a child’s enrollment to complete the initial DRDP. This flexibility does not prevent CSPP contractors from completing the initial DRDP 60 days from the date of a child’s enrollment if preferred by the contractor. A second rating period must occur six (6) months following the initial rating.

NOTE: While the CDE, ELCD is permitting CSPP contractors to use the DRDP Modified Essential View during FY 2021–22, the CDE strongly encourages CSPP contractors use, at a minimum, the DRDP Essential View in order to obtain critical observations and data, and to support children’s social and emotional development. This is particularly important during the pandemic due to the additional stressors that children, families, and communities are experiencing, and the potential impact on children’s development.

The CSPP contractors are required to submit DRDP data to the DRDP Online system for any assessment period for which complete data has been collected. Partial DRDP data shall not be uploaded to the DRDP Online system.

For more information, resources, and training on the DRDP assessment and DRDP Online procedures visit the Desired Results for Children and Families website at <https://www.desiredresults.us/>.

Note: When children are participating in distance learning services because the CSPP contractor is required to close, or when group sizes are limited due to a local or state public health order or guidance related to the COVID-19 pandemic, the teaching staff conducting the DRDP should gather family perspectives about their child’s development and behavior to inform the DRDP assessment. The information families provide is important, is considered valid data, and facilitates partnering to support children's learning and development.

When a child is not receiving in-person services due to the family sheltering in place and the contractor is unable to complete the DRDP assessment, the contractor shall indicate **unable to rate** due to extended absences for the child.

Education Program

The CSPP contractors must include a child development and education program that includes, but is not limited to, the following:

- The program approach is developmentally, linguistically, and culturally appropriate
- The program is inclusive of children with special needs
 - ◆ The program and its staff should participate with the parents and the Individualized Education Plan or Individualized Family Service Plan (IEP/IFSP) team to learn more about how to support the care and education of individual children with disabilities in their program.
 - ◆ The program should work with the IEP/IFSP team to provide appropriate activities and instruction that align with the goals or outcomes set forth in the IEP/IFSP during the child’s daily routines and activities.
- The program encourages respect for the feelings of others and ensures equitable treatment of all children by eliminating bias through practices
- The program supports children’s social and emotional development by:
 - ◆ Building trust
 - ◆ Planning routines and transitions so they can occur in a timely, predictable, and unhurried manner
 - ◆ Helping children develop emotional security and facility in social relationships
- The program provides for the development of each child’s cognitive and language skills by:
 - ◆ Using various strategies, including experimentation, inquiry, observation, play, and exploration
 - ◆ Ensuring opportunities for creative self-expression through activities such as art, dramatic play, music, and movement
 - ◆ Promoting positive interactions and conversation among children and between children and adults
 - ◆ Supporting emerging literacy and numeracy, and
 - ◆ Supporting dual language children to maintain their home language while acquiring English

- The program promotes each child's physical development by providing sufficient time for both indoor and outdoor play with engaging equipment, materials, and activities to promote active play and movement.
- The program promotes and maintains health and safety practices for adults and children.

These education components must be provided to all children enrolled in a CSPP, including for those children who are participating in distance learning services when the CSPP contractor is unable to offer in-person services to all children enrolled because the CSPP is required to close, or group sizes are limited, due to a local or state public health order or guidance related to the COVID-19 pandemic. All services provided to enrolled children must be individualized and focused on activities that would have meaning and interest to the child and can be supported by the family at home.

Staff Development Program

The CSPP contractors must implement a staff development program and provide all staff members with professional development opportunities. CSPP contractors must document staff development activities and maintain the documentation for review by the CDE, ELCD. The staff development program must include all of the following:

- Identification of training needs of staff or service providers;
- Written job descriptions;
- An orientation plan for new employees;
- An annual written performance evaluation procedure unless a different frequency of performance evaluations is specified in a contractor's collective bargaining agreement with their employees;
- Staff development opportunities that include topics related to the functions specified in each employee's job description and those training needs identified by the contractor;
- An internal communication system that provides each staff member with the information necessary to carry out his or her assigned duties.

The following resources are currently available to support professional development opportunities for staff, and include topics such as health and safety, child development, teacher-child interactions, supporting resilience, trauma-informed care, implicit bias, multilingualism, and children with disabilities:

Early education practitioners play a role in dismantling systemic racism, and may find the following resources to be helpful:

- Visit the Embrace Race web page for *Eight (8) Tips for Talking to Your Child About Racial Injustice* at <https://www.embracerace.org/resources/young-kids-racial-injustice>
- The Child Mind Institute, Inc. Racism and Violence: How to Help Kids Handle the News web page at <https://childmind.org/article/racism-and-violence-how-to-help-kids-handle-the-news>

Parent Involvement and Education

Each CSPP contractor shall include in its program a parent involvement and education component that includes all of the following:

- An orientation for parents that includes topics such as program philosophy, program goals and objectives, program activities, eligibility criteria and priorities for enrollment, fee requirements, and due process procedures
- At least two (2) individual conferences with the parent(s) per year
- Parent meetings with program staff
- An open-door policy that encourages parents to participate in the daily activities whenever possible
- A Parent Advisory Committee that advises the contractor on issues related to services to families and children
- Sharing information between staff and parents concerning their child's progress

Reminder: Per the *California Code of Regulations*, Title 22 (22 CCR), parents have the right to access their children at all times; however, temporary measures should be taken to reduce the risk of the spread of COVID-19. Coordination for parents' visit to the classroom can be made in advance and parents must follow safety procedures (i.e. social distancing, facial covering, and washing hands or sanitizing prior to entry). If more restrictive, local or state public health orders or guidance must be followed.

Note: Parent orientations, individual conferences, parent meetings, and Parent Advisory Committee meetings should, to the extent possible, be offered in the family's home language. CSPP contractors may offer the parent involvement and education component virtually; however, families' access to the technology required to participate must be considered.

Health and Social Services

The CSPP contractors are required to communicate with families about their child's progress and the family's overall well-being, and include in the program a health and social services component for children and families that include:

- Identification of the needs of the child **and** the family for health or social services,

- Referrals to the appropriate agencies in the community based on the identified needs, and
- Follow-up procedures to ensure that the family's health and social services needs have been met.

Contractors must document these efforts and maintain the documentation for review by the CDE, ELCD.

Community Involvement

Each contractor shall include in its program a community involvement component which includes, but is not limited to, the following:

- Each contractor shall solicit support from the community including the solicitation for donated goods and services
- Providing information to the community regarding the services available
- Contractors may utilize media or other forms of communication in the community

Nutrition

Each CSPP contractor shall ensure that children have nutritious meals and snacks during the time in which they are attending in-person services. Meals and snacks shall be culturally and developmentally appropriate for the children being served and meet the nutritional requirements specified by the federal Child and Adult Care Food Program (CACFP) or the School Nutrition Programs (SNP).

Program Self-Evaluation Process

Each contractor must develop and implement an annual plan for its Program Self-evaluation (PSE) process. The annual PSE shall include all of the following:

1. A self-evaluation based on the use of the CDE, ELCD Program Review Instrument (PRI)
2. An assessment of the program by parents using the Desired Results Parent Survey
3. An assessment of the program by staff and board members, as evidenced by written documentation
4. An analysis of contractor's findings based on the use of the PRI, including the Desired Results Developmental Profile, the Environment Rating Scales, and the Desired Results Parent Survey
5. A written list of tasks needed to modify the program in order to address all areas that need improvement
6. Procedures for the ongoing monitoring of the program to ensure that identified areas of improvement are addressed and the program continues to meet standards of the CSPP contract. Identified elements requiring modification must be addressed in a timely and effective manner

The CSPP contractor shall use the Agency Self-Evaluation Report to submit a summary of the findings of the program self-evaluation to the CDE by June 1, of each year.

Note: The CDE, ELCD will issue further guidance on the PSE requirements during Spring 2022.

Parent Survey

The CSPP contractors must annually distribute the Desired Results Parent Survey to parents, collect the surveys, and analyze the results. Surveys shall be provided in the family's home language and used to plan and conduct activities to help parents support their child's learning and development and to meet the family's needs. The contractor shall use the results and analysis of the parent survey as part of its annual PSE process.

Contractors may deliver and collect surveys in a format that is easily accessible and convenient to families. This may include digital surveys, electronic submissions, or hardcopies.

Environment Rating Scales

All CSPP contractors, including those that provide service through a Family Child Care Home Education Network (FCCHEN), must complete an Environment Rating Scale (ERS) that is appropriate for the type of setting and age of children served to measure program quality (i.e., The Early Childhood Environment Rating Scale [ECERS] for center-based CSPP contractors, and The Family Child Care Environment Rating Scale [FCCERS] for CSPP contractors who provide services through a FCCHEN). The ERS must be completed:

1. Every three (3) years as part of the program compliance review

Note: For FY 2021-22, the assigned CDE, ELCD Program Quality Implementation (PQI) Office regional consultant will complete the applicable ERS observation for all on-site monitoring reviews. The ERS observation results will be used to provide CSPP contractors with technical assistance for subscales that score below a five (5). Scores will not be used to determine a CSPP contractor's compliance with the terms of the CSPP contract.

2. Annually as part of the PSE process

Note: CSPP contractors are not required to have the ERS completed by a reliable rater for purposes of the PSE.

Note: The CSPP contractors must complete an ERS on classrooms and FCCHEN homes in a manner that will not increase the health risks to the children and providers. Staff who typically complete ERS assessments on multiple classrooms or family childcare homes should ensure that when entering the environment, all individuals take necessary precautions to prevent the spread of COVID-19 (i.e., wearing masks indoors and using personal protective equipment).

The Environmental Rating Scale Institute (ERSI) has issued updated guidance regarding the use of the ERS tools during the COVID-19 pandemic. Please visit the ERSI website for more information regarding this guidance at <https://www.ersi.info/index.html>.

Staffing Qualifications:

Program Director

If the contractor operates at two (2) or more sites, the contractor shall employ a program director who has administrative and programmatic responsibility for the program. The program director shall meet the requirements specified in Staffing Qualifications on the CDE General Staffing Qualifications web page at: <https://www.cde.ca.gov/sp/cd/ci/genstaffqual.asp>.

The State Superintendent of Public Instruction (SSPI) shall grant a waiver of this requirement upon a contractor's demonstration of the existence of compelling need.

Site Supervisor

At each site there shall be a person designated as the site supervisor who has operational program responsibility for the program. A site supervisor shall meet the staffing qualifications specified on the CDE Staffing Qualifications web page at: <https://www.cde.ca.gov/sp/cd/ci/staffqualifications.asp>

The SSPI shall grant a waiver of this requirement upon a contractor's demonstration of the existence of compelling need.

Teacher Qualifications

A qualified teacher is an individual with a permit issued by the Commission on Teacher Credentialing (CTC) authorizing service in the care, development, and instruction of children in a CSPP program. This can be any of the following permits:

- Regular Children's Center Instructional Permit
- Limited Children's Center Instructional Permit
- Emergency Children's Center Instructional Permit
- Child Development Master Teacher Permit
- Child Development Teacher Permit
- Child Development Associate Teacher Permit

Or

A current teaching credential issued by the CTC authorizing teaching service in elementary school or a single subject credential in home economics, and 12 units in Early Childhood Education and/or Child Development or two (2) years' experience in early childhood education or a child care and development program.

Staffing Ratios

All CSPP contractors must maintain at least the following minimum ratios in all centers serving preschool children (three-years-old to enrollment in kindergarten):

- 1:8 adult-child ratio
- 1:24 teacher-child ratio
- Except as otherwise provided in *California Code of Regulations, Title 22 (22 CCR)* of the Child Care Licensing Standards, the full-day CSPP may exceed adult-child ratios by fifteen (15) percent of the total number of children in attendance for a period of time not to exceed one hundred twenty (120) minutes in any one (1) day
- The ratio for full-day CSPP during a scheduled nap period may be a 1:24 teacher-child ratio, provided that the remaining staff necessary to meet the adult-child ratio are immediately available at the center
- All napping children shall remain on a cot/mat. If one child gets up, additional staff need to be called in immediately to meet the required adult-child ratio.

Family Childcare Home providers who serve children through a CSPP FCCHEN must adhere to the ratio requirements set forth in 22 CCR, Child Care Licensing Standards.

Note: Compliance with these ratios shall be determined based on actual attendance

Background

The *EC* Section 8203 requires that the State Superintendent of Public Instruction (SSPI) develop standards and indicators for the implementation of quality programs.

The 5 CCR Section 18272 requires contractors to complete a Desired Results Developmental Profile for each child who is enrolled in the program at least ten (10) hours per week, within sixty (60) calendar days of enrollment, and at least once every six (6) months thereafter. If a child has a disability, and/or has an IEP, the DRDP must be completed even if the child is enrolled for less than 10 hours per week, and must be completed with any necessary accommodations and adaptations.

The 5 CCR Section 18273 requires contractors to provide an education program and offer program activities and services that are age appropriate, meet the developmental needs of each child, meet the cultural and linguistic needs of children and families, and meet the needs of children with special needs, including children with disabilities, and

their families.

The 5 CCR Section 18274 requires contractors to develop and implement a staff development program.

The 5 CCR Section 18275 requires contractors to provide a parent involvement and education component that includes, but is not limited to, sharing information and conducting at least two (2) individual conferences with parents each year.

The 5 CCR Section 18276 requires contractors to include in its program a health and social services component.

The 5 CCR Section 18277 requires contractors to include in its program a community involvement component which shall include, but not be limited to, the following:

(a) Each contractor shall solicit support from the community. This includes the solicitation of donated goods and services.

(b) Providing information to the community regarding the services available. Contractors may utilize media or other forms of communication in the community.

The 5 CCR Section 18278 requires contractors to include in its program a nutrition component that ensures children have nutritious meals and snacks during the time in which they are in the program.

The 5 CCR Section 18279 sets forth requirements for contractors for developing and implementing an annual plan for its PSE process.

The 5 CCR Section 18280 requires contractors to annually distribute the Desired Results Parent Survey to parents, collect the surveys from the parents, and analyze the results to plan and conduct activities to help parents support their child's learning and development and to meet the family's needs.

The 5 CCR Section 18281 requires contractors to complete an environment rating scale that is appropriate for the type of setting and age of children served, to measure program quality.

EC sections 8205(t) and 8295–8305 and 5 CCR Section 18295 set forth staffing qualifications requirements for the CSPP.

CALIFORNIA DEPARTMENT OF SOCIAL SERVICES

EXECUTIVE SUMMARY

CHILD CARE BULLETIN (CCB) NO. 22-15

The purpose of this Child Care Bulletin (CCB) is to provide guidance to counties and child care and development contractors regarding the expiration of COVID-19 flexibilities effective June 30, 2022. These flexibilities include the use of the modified essential view for the Desired Results Developmental Profile (DRDP); waived signature requirements; temporary emergency vouchers for essential workers, at-risk children, and children with disabilities; and the expiration of 16 paid nonoperational days for COVID-19-related closures. This CCB also provides guidance with respect to the continuation of waived family fees and hold harmless policies with respect to reimbursement through June 30, 2023.

Purpose

This CCB provides guidance to counties and child care and development contractors regarding the expiration of specified COVID-19 flexibilities effective June 30, 2022, and the continuation of specified COVID-19 flexibilities through June 30, 2023. Expired flexibilities include the use of the modified essential view for the [Desired Results Development Profile](#) (DRDP) for direct service contractors; waived signature requirements; temporary emergency vouchers for essential workers, at-risk children, and children with disabilities; and 16 additional paid nonoperational days for COVID-19-related closures. Continued flexibilities include waived family fees and the hold harmless policy with respect to reimbursement.

Background

On March 4, 2020, the Governor declared a State of Emergency in California in response to the COVID-19 pandemic. Since then, the State has instituted several policies to support child care providers throughout the pandemic. [AB 82](#), later amended by [AB 131](#), authorized an additional 16 paid nonoperational days for COVID-19-related closures, reimbursement based on the maximum certified hours of care regardless of attendance for most subsidized providers, and family fee and signature waivers, for use between July 1, 2021, and June 30, 2022. On September 23, 2021, Governor Newsom signed [SB 168](#), which extended the paid nonoperational days and reimbursement based on the maximum certified hours of care to providers serving children in the Emergency Child Care Bridge Program for Foster Children (Bridge Program). [SB 89](#), later amended by [AB 131](#), authorized child care and development contractors to provide temporary emergency vouchers for children of essential workers, at-risk children, and children with disabilities or who have special health care needs.

Pursuant to Title 5 of the [California Code of Regulations \(5 CCR\) Section 18272](#), the [Desired Results Developmental Profile \(DRDP\)](#) is a required tool for all direct service programs providing subsidized child care and development services. In the Fall of 2020, the pre-existing DRDP Essential View was modified for use in virtual settings since contact with children was limited due to the ongoing pandemic. On August 25, 2021, the CDSS issued guidance announcing that the DRDP Modified Essential View could be used throughout the 2021-22 Fiscal Year.

Many of these policy flexibilities were instituted as a response to the COVID-19 pandemic and will expire on June 30, 2022. CDSS issued the Child Care Bulletins below directing counties and child care and development contractors to implement these flexibilities:

[Child Care Bulletin 21-01](#): Family Fee Waivers

[Child Care Bulletin 21-06](#): Revised Family Fee Schedule

[Child Care Bulletin 21-07](#): Reimbursement Based on Enrollment Rather than Attendance and Signature Requirements

[Child Care Bulletin 21-09](#): Increase in Paid Nonoperational Days

[Child Care Bulletin 21-18](#): Reimbursement Based on Enrollment and 16 Paid Nonoperational Days for Providers who Care for Children in the Bridge Program.
[Child Care Bulletin 21-03](#): Guidance on the use of the Desired Results Developmental Profile (DRDP) Modified Essential View for FY 2021-22

CDE issued [Management Bulletin 21-08](#) directing counties and child care and development contractors to enroll essential workers, at-risk children and children with disabilities using temporary, emergency child care vouchers.

Guidance

The following COVID-19 policies expired on June 30, 2022:

Desired Results Developmental Profile Modified Essential View

The use of the DRDP Modified Essential View ends June 30, 2022. Beginning July 1, 2022, direct-service contractors providing services to infant, toddler, and/or preschool aged children are required to use either the Essential, Fundamental (preschool only) or Comprehensive view of the DRDP to support children's learning and development and to communicate with families. For school-age children, the DRDP – School-Age, consisting of 13 measures, is still required. Direct-service contractors are required to complete a DRDP profile of each child who is enrolled in their program for at least ten hours per week within 60 calendar days of enrollment and then at least once every six months.

Signature Requirement

Between July 1, 2021, and June 30, 2022, providers were not required to collect parent signatures on daily attendance records. Effective July 1, 2022, providers are required to resume collecting signatures on their attendance records, in accordance with [5 CCR Section 18065](#) and [WIC Section 10227.5](#). Contractors are encouraged to notify parents and providers of this change as soon as possible.

Paid Nonoperational Days

Paid Nonoperational Days for COVID-19-Related Closures

Between July 1, 2021, and June 30, 2022, child care and development providers were provided 16 paid nonoperational days for closures due to COVID-19-related reasons. The 16 paid nonoperational days were available for both licensed and license-exempt providers (including license-exempt in-home providers) serving children enrolled in the CAPP, CalWORKs Stage One, C2AP, C3AP, CMAP, and CFCC programs.

Providers are no longer eligible to bill for nonoperational days for COVID-19-related closures effective July 1, 2022.

Ten (10) Paid Nonoperational Days

Providers must still be reimbursed for 10 paid nonoperational days available pursuant to [5 CCR Section 18076.2\(b\)\(2\)](#). To receive payment for these days, providers must have documentation of the contractual terms that they use for non-subsidized children in their care which require payment for non-operational days. These 10 days do not need to be used consecutively. Counties and contractors must have safeguards in place to ensure eligible individual providers are not paid for more than a total of ten nonoperational days each fiscal year.

Temporary Emergency Child Care Vouchers

Temporary emergency vouchers for children of essential workers, at-risk children, and children with disabilities or special healthcare needs whose individualized education plan or family service plans include early learning and care will expire on June 30, 2022. As a reminder, families with emergency child care vouchers have first priority for enrollment into ongoing child care services in CAPP and CMAP in accordance with [Item 6100-194-0890, Provision 7 of AB 89 \(Chapter 7, Statutes of 2020\)](#), [Section 111\(f\) of SB 98 \(Chapter 24, Statutes of 2020\)](#), [Section 262\(c\)\(3\)\(B\) of AB 131](#), and [5 CCR Section 18106](#). Families receiving first priority for enrollment shall be enrolled in the priority order specified in [WIC Section 10271](#).

Contractors must document that these families meet the eligibility and need requirements specified in [WIC Section 10271](#) in order to be enrolled into ongoing subsidized CAPP child care. At the time of certification into ongoing subsidized child care, the contractor must determine if the family is responsible for paying a flat monthly family fee and shall assess the family fee as specified using the current Family Fee Schedule.

Families receiving services with emergency child care vouchers who do not meet eligibility and need requirements in WIC Section 10271 for transition into CAPP or CMAP must be disenrolled as of June 30, 2022.

Parent and Provider Notification

Parent Notice of Action (NOA)

In accordance with [5 CCR Section 18119](#), the contractor shall issue a NOA to the parent when changes are made to the service agreement. Such changes may include, but are not limited to, an increase or decrease in the amount of services, or termination of service.

Contractors shall issue families transitioning from temporary emergency child care into ongoing child care a NOA informing them of their 12-month eligibility in accordance with [5 CCR Section 18118 et seq.](#) Contractors are required to issue a NOA as specified in

[5 CCR Section 18118](#), and shall also provide families with due process as specified in [5 CCR Section 18120](#).

Provider Notice

In accordance with [WIC Section 10233.5](#), Alternative Payment Programs (CAPP) must provide a written notice, which includes these changes and their specific action(s) and effective date of the action(s), to the provider.

This notice must be issued on the same day the NOA is issued to a family. The provider notice is to be issued when any of the following occurs:

- Changes to reimbursement amounts
- Changes to certified need (hours of care)
- Changes to certified schedules
- Rate changes
- Increases or decreases to family fees
- Disenrollment from services
- Changes of provider

The provider notice must be issued either electronically, if requested by the child care provider, or via the United States Postal Service. The notification shall not be deemed a violation of the parent's confidentiality, but as a method to ensure the proper administration of subsidy funds.

Flexibilities Included in the 2022-23 State Budget

Pursuant to [Assembly Bill \(AB\) 210 \(Chapter 62, Statutes of 2022\)](#), signed by the Governor on June 30, 2022, the following flexibilities have been extended effective July 1, 2022:

- Family fees will be waived for all Child Care and Development Programs administered by the California Department of Social Services [WIC section 10290(j)];
- Voucher-based providers will be reimbursed based on the maximum certified hours of care instead of on attendance (AB 210, Section 27); and,
- Center-based contractors will be reimbursed based on the contract maximum reimbursable amount or net reimbursable program costs, whichever is less (AB 210, Section 27).

Family Fees

Family fees will be waived between July 1, 2022, and June 30, 2023, for all families receiving child care subsidies through the following programs:

- Alternative Payment Programs (CAPP), including Migrant Alternative Payment Programs (CMAP)
- Migrant Child Care and Development Programs (CMIG)

- General Child Care and Development Programs (CCTR)
- Family Child Care Home Education Networks (CFCC)
- Child Care and Development Services for Children with Special Needs (CHAN)
- California Work Opportunity and Responsibility to Kids (CalWORKs) Stages One, Two (C2AP), and Three (C3AP)

Additional guidance related to the extension of the family fee waiver through June 30, 2023, has been released via [CCB No. 22-14](#).

Hold Harmless for Provider Reimbursement Levels

Between July 1, 2022, and June 30, 2023, voucher-based providers and center-based contractors will be reimbursed based on the maximum certified hours of care instead of attendance. For voucher-based providers serving families on a variable schedule, reimbursement was based on the maximum authorized hours of care. For center-based contractors, reimbursement was made at 100% of the contract maximum reimbursable amount or net reimbursable program costs, whichever was less. Affected providers include: Licensed and license-exempt child care providers receiving vouchers through CalWORKs Stage One, C2AP, C3AP, CAPP, CFCC, CMAP, and/or the Bridge Program, as well as contracting agencies operating a CMIG, CCTR, CHAN, or CFCC program.

Additional guidance related to the anticipated extension of the hold harmless for provider reimbursement levels through June 30, 2023, will be released in a separate CCB.

If you have any questions or need additional guidance regarding the information in this letter, please contact your Program Quality and Improvement Consultant or CalWORKs Stage One Child Care analyst. You can find their contact information on the [Child Care and Development Division contact webpage](#).

Sincerely,

Original Document Signed By

LUPE JAIME MILEHAM, EdD
Deputy Director
Child Care and Development Division

Treasure Hunt

GOALS:

The goal of this activity is for participants to become familiar with DRDP guidelines and learn about the FAQ resource.

MATERIALS REQUIRED:

- Copies of DRDP Frequently Asked Questions (FAQ)
- Copies of the two versions of Treasure Hunt

TIME: 30 min

ACTIVITY PROCESS:

1. Have participants work in dyads, triads or table groups. Give one version of questions to each table.
2. Ask each small group to work together to find the answers to the questions, use the FAQ as a resource in answering the questions, and note which FAQ the group used to answer each question.

REFLECTION:

- Return to the large group. Read the Treasure Hunt questions and solicit answers from the group. Correct misconceptions as needed.
- Explain that the DRDP Frequently Asked Questions are available on the Desired Results website, and that participants should check the site regularly to see if there have been updates. Explain that, this resource answers many questions teachers may have about using the DRDP.

Treasure Hunt - Version 1

Your group is going on a treasure hunt, looking for answers about the DRDP. Use the FAQs as a resource to answer the questions below. Make sure you note which FAQ you used to answer each question.

1. If the program is closed one Friday every month for staff training and clean up. How do I calculate when that first DRDP is due?
2. Our program likes the Creative Curriculum System. Must we use the CDE proposed curriculum instead?
3. One of the children in my group is amazing! I rated several measures at "Integrating Earlier" and she does more than what is at Integrating Earlier. Is this one of those times I use "Emerging" to show she's emerging to the next level?
4. We are part of a FCCHEN, and I supervise 6 family childcare homes. The providers tell me they are not allowed to complete DRDPs. Is this true? Who is responsible for completing the DRDP's on the children in their care?
5. We have an inclusive preschool program. Do I still complete the DRDP on children in the program that have an IEP?

Treasure Hunt - Version 2

Your group is going on a treasure hunt, looking for answers about the DRDP. Use the FAQs as a resource to answer the questions below. Make sure you note which FAQ you used to answer each question.

1. I'm teaching a 3-year-old classroom, but I also have a two-year-old who will turn three around Thanksgiving. The first DRDP is due while she's still two, though. Do I have to use the Infant/Toddler view with her even though she's in a preschool classroom?
2. Our program hates wasting so much paper. Can we use the same DRDP forms for both the fall and spring assessment periods? And if not, is there another paper-saving option that you can think of?
3. We really don't have room at our school to keep all the children's portfolios for five years, should we rent out one of those storage spaces?
4. The DRDP is so long, we only want to use some measures in certain domains. Can we skip measures?
5. This is my first time using DRDP, where do I go to find free training opportunities?

FAQ

Frequently Asked Questions (FAQ) by topic:

- [Still have questions?](#)

DRDP Online

How do I know what my user role is within the DRDP Online system?

You can view your user role(s) by selecting your name from the menu at the left and then selecting User Profile.

How do I know the functions associated with each type of user role?

For details about roles and permissions, see the [DRDP Online Roles and Permissions](#) resource.

What is the difference between the Agency Administrator role and the Lead Agency Administrator role?

A user with the Lead Agency Administrator role has all the same access and permissions as an Agency Administrator and can also select the age level instrument views for an agency. For more details about roles and permissions, see the [DRDP Online Roles and Permissions](#) resource.

Are Lead Agency Administrators able to add new administrators to the system?

Yes. Users with the Lead Agency Administrator role are able to add new administrators to the system.

Is it possible for one administrator to be assigned to multiple sites?

Yes. A user with the Agency Administrator role may be assigned to multiple sites.

Is it possible to assign a different site administrator to each site?

Yes, an agency administrator may assign a unique site administrator to each site. Users with the Site Administrator role may also be assigned to multiple sites.

Do all sites within an agency have to use the same age level instrument views?

Yes. The Lead Agency Administrator selects the age level instrument views for an agency.

How are the age level instrument views selected?

The Lead Agency Administrator selects the age level instrument views for an agency. For details on how to select the age level instrument views, see the [Instructions to Select the DRDP View](#) (PDF) and [Selecting Assessment View for Your Agency](#) (video).

When does the Lead Agency Administrator select the view for our program? Can we change the view before the new contract year?

Annually, the Lead Agency Administrator must select the DRDP views for each age level that your agency, family child care home, or school district will use for the new fiscal school year. Once selected, the view should not be changed until the next contract year begins. Switching views after rating will result in teachers unable to see the ratings completed on the previous view. All DRDP views will be locked on November 12, 2022, to ensure report functionality.

Please review the [DRDP measures and views chart](#) for detailed information on domains and measures and their corresponding views and levels. This [tip sheet for lead administrators](#) and tutorial on [selecting instrument views](#) are helpful resources. For additional support, please [schedule an appointment](#) with the DRDP support team.

Is there a way to upload new users via an upload template?

Yes. Users with an administrator role may add new users to DRDP Online. For details on how to upload new users using an upload template, see the [Using Templates to Upload Users](#) (PDF) and [Adding Users](#) (video).

Can I still use the 2019 DRDP Online upload templates?

No, they may not still be used. The only template that will be accepted is the [DRDP Online All Instrument Upload Template](#).

Is there a way to upload new children to DRDP Online and update the files for children that already exist in the system using an upload template?

Yes. Users with an administrator role may add new children to DRDP Online and also update the files for existing children using an upload template. For details on how to upload new children and update files using a template, see the [Using Templates to Upload and Update Child Files](#) (PDF), [Adding Information to and Formatting Child Upload Templates](#) (video), and [Uploading Using Child Upload Templates](#) (video) [resources available on the Desired Results website](#).

How do I edit children's demographic information?

Only users with an administrator role may edit children's demographic information. To access a child's demographic information, use the Search for Child/Enroll option from the menu on the left. From the search results, select the orange eye icon to view the child's demographic information. Select the pencil on the left to edit the child's demographic information and save any changes made.

Children's demographic information may also be updated using an upload template (see question above).

Is there a way to upload and lock children's ratings using a template?

Yes. Users with an administrator role may upload and lock children's ratings using an upload template. For details on how to upload children's ratings using an upload template, see the [Using Templates to Upload \(add\) and Update Child Files](#) (PDF), [Adding Information to and Formatting Child Upload Templates](#) (video), and [Uploading Using Child Upload Templates](#) (video) [resources available on the Desired Results website](#).

Do I have to add new classes for each rating period?

Yes. Users with an administrator role add classes. For more information about how to add classes, see the [Getting Started for Administrators](#) (PDF) and [Adding Classes](#) (video) [resources for administrators](#) available on the Desired Results website.

Which type of user can add children to classes?

Users with an administrator role may add children to classes. For more details about roles and permissions, see the [DRDP Online Roles and Permissions](#) resource. For more details on how to add children to classes, see the [Getting Started for Administrators](#) (PDF), [Re-enrolling and Re-assigning Children for Administrators](#) (PDF), and [Managing Enrollment](#) (video) [resources available on the Desired Result website](#).

Is it required that I upload teacher observations to DRDP Online?

No. DRDP Online is for entering children's ratings and generating reports.

DRDP Online Reports

What reports are available in DRDP Online?

These reports available in DRDP Online.

- The **Group Progress Report** provides information for all children in one rating period.

- The **Cohort Progress Report** provides domain scale scores for a selected group of children. It also provides the ability to select a filter such as program type. The report shows all domain scaled scores for a selected group within the current year (to date).
- The **Child Progress Report** provides information on individual children in one rating period or the child's progress over the course of the year, if ratings are entered and locked in more than one rating period.
- The **Parent Progress Report** is a summary report for parent conferences that includes Child Progress over time. It includes graphics and descriptors to show the child's rating and additional descriptive information about the child's progress.
- The **Class Planning Report** allows users to select a rating period and classroom to generate a report for all the children in the classroom. The report will include scaled scores for these children in all rating periods in the current year.
- The **Rating Completion Report** can be used by administrators to check percentages, and numbers of classes and children, that their staff has rated for a specific rating period.
- The **Group Detail Report** is now available in the reports menu. The Group Detail Report provides percent by measure for each developmental level for the selected group within the current year (to date) for agency planning purposes or agency reporting purposes.

What does "cohort" mean in the Cohort Progress Report?

The Cohort Progress Report shows the progress of a group (or cohort) of children over the course of a year. A user may select Fall 2018 and see the progress of the children from fall through Spring 2019. If Spring 2019 is selected, the report will find the children with ratings in spring and show their progress throughout the year.

Why can't I see my school-age reports?

These school-age reports are available in DRDP Online: Class Planning Report for School Age Complete, Group Detail Report and Child Progress Report. You can also print the rating record.

When I look at my reports, the numbers are different for my agency each day. Why is this happening?

Proficiencies are moving into DRDP Online each day. As proficiencies are added, more reports become available. We recommend that users check for updates regularly.

I locked the ratings for all my children. Why can't I see my reports yet?

Once ratings are entered and locked, a scoring engine calculates those ratings to generate reports. The process of adding records to the scoring engine daily takes time; therefore, the reports are not automatically generated and available.

DRDP- A Developmental Continuum from Early Infancy to Kindergarten Entry Requirements

When is the Desired Results Developmental Profile (DRDP) to be completed? The first DRDP assessment instruments must be completed within 60 calendar days of the child's first day of enrollment in the program and every six months thereafter. Completing the DRDP (rating the child's development on the DRDP measures) is usually completed over a two-week period; however, teachers and caregivers are expected to record observations and gather evidence on an ongoing basis.

For part-time preschoolers who are attending one or two days a week, would the 60 days count from days of enrollment or calendar days?

The DRDP must be completed for all children within 60 calendar days regardless of the circumstances. Remember, in order for a DRDP to be completed, children must attend the program ten hours a week or more.

If the child leaves or withdraws before the 60 days, does an assessment still need to be completed?

The assessment is only completed if the child is still enrolled in the program.

Who is required to administer the DRDP?

The child's primary teacher or caregiver is responsible for completing the DRDP. It should not be completed by assistant teachers or by families, although their comments and other anecdotal observations should be used to inform the child's primary teacher or caregiver ratings. The staff person who completes the developmental profile should be able to understand the child's language, or use an interpreter if necessary.

Which version of the Desired Results Developmental Profile (DRDP) should be used?

- **Infant/Toddler:** Use the DRDP–Infant/Toddler Comprehensive or Essential View for children from early infancy to 36 months, unless two years and nine months in a preschool classroom. The Infant/Toddler Comprehensive View is required for all infants and toddlers with an IFSP.
- **Preschool:** Use the DRDP Preschool Comprehensive, Fundamental, or Essential View for children who are three years of age through transitional kindergarten. Any view of the DRDP–Preschool may also be used for children who are at least two years and nine months entering a preschool classroom who will turn three on or before September 1. Use of the Preschool Fundamental View is required for all preschool age children with an IEP.
- **Kindergarten:** Use the DRDP–Kindergarten Comprehensive, Fundamental, or Essential View for children who turn five by September 1st enrolled in a kindergarten program. Children in transitional kindergarten should use the DRDP–Preschool.
- **School Age:** For after school programs that provide services for children from kindergarten entry through 12 years of age, the agency may use the Desired Results Developmental Profile–School Age (DRDP-SA©), Simplified Version or the Complete Version.

Is it okay to use DRDP-K for preschool children?

The Desired Results Developmental Profile–Kindergarten© (DRDP–K ©) is an assessment instrument that is designed for teachers to use to reflect on the learning, development, and progress of all children during the kindergarten year. It may not be used with preschool children.

Which DRDP assessment is for children enrolled in Transitional Kindergarten (TK)?

The DRDP for Preschool should be used with children in TK. The Preschool view allows for a wider range of development for the age range of children in TK. The DRDP-PS assessment is inclusive of all children including children with disabilities and should include input from families.

Children enrolled in UPK/ UTK are preschool-age children who have not turned 5 by September 1st. Children in this age range were included in the research study for the DRDP PS instrument. Use of the DRDP-K with TK children could have the unintended consequence of a floor effect. As California moves into full implementation of TK, the DRDP and California Preschool Learning Foundations will be reviewed and updated as needed.

The DRDP-K was developed for children enrolled in kindergarten who turn 5 by December 2nd. When the date to enroll in kindergarten was moved to September 1, and Transitional Kindergarten was created for children whose birthdays fall between September 2nd and December 2nd, the developmental continuum was still appropriate for those children enrolled in TK, as the research studies included children in their age range. However, now that the entrance age for TK has been moved to earlier dates, the DRDP Kindergarten does not provide an appropriate range of development and could cause an unintended floor effect.

For how long should DRDP forms be maintained on file?

There is a five year record retention requirement for maintaining DRDP records. DRDP Online allows programs to meet this record retention requirement and store the DRDP records in a free, secure online system.

Should the portfolios be kept on file also?

Portfolios should be kept on file (either electronically or paper versions) during the program year. At the end of the year, or when a child leaves the program, the portfolio should be sent home with the child. There is no need to store them for five years.

How many pieces of documentation are required per measure?

You need evidence to show mastery of the skill. By definition, mastery is consistently, over time, and in different situations. Evidence should be gathered from families and other adults who know the child in addition to the evidence collected from the teacher.

If a child terminates the program and reenrolls, do I complete a new assessment.

If a child returns after terminating the program, within 30 days, a new assessment does not need to be completed.

We are using an outside vendor to collect documentation and complete ratings for the DRDP, do ratings have to be entered in DRDP Online?

Effective Fall 2015, all state-funded agencies are required to enter all DRDP ratings in DRDP Online. The use of a vendor to help with data collection or organization of documentation is a choice of the agency. The CDSS requires DRDP ratings to be entered in DRDP Online and the psychometric reports used to support learning and development.

If a teacher selects the conditional measure bubble (Measure not rated: The child's development is beyond the latest developmental level (required for children with IEPs)), is evidence required to show the child's development is beyond the latest developmental level?

When asked, a teacher is expected to articulate why the conditional measure was not rated. The CDSS does not require documentation for not rating a conditional measure. However, an agency may have a different policy.

When children leave preschool to enter kindergarten, what level of development are they expected to achieve?*

The DRDP is a strength-based assessment that takes into account the wide range of typical development at any age by offering positive descriptions of children's knowledge and skills across broad continua of development and learning. The DRDP assessment is 'criterion-referenced' rather than 'norm-referenced.' In other words, the levels that are described for each DRDP measure and domain are based on research on developmental sequences, rather than on an average score or rating for an age group. Each child's learning and developmental progress are assessed relative to research-based criteria or levels in a progression (criterion-referenced) rather than compared to the average learning and developmental progress of a large group of children (norm-referenced). The building middle and building later levels of the DRDP generally correspond to the California Preschool Learning Foundations' descriptions of children's competencies at around 60 months for typically developing children who are provided appropriate educational support and nurturance.* It is important for programs to continue improving the educational support and nurturance they provide, in order to help children reach the expectations described in the Foundations. Without high-quality, appropriate support, a substantial number of children who are typically developing would likely not reach those expectations.

*The California Preschool Learning Foundations describe competencies—knowledge and skills—that most young children can be expected to exhibit when they are provided appropriate educational support and nurturance.

Desired Results Developmental Profile (DRDP) Formatting

Should the DRDP be copied each time it is administered?

It is required that teachers use DRDP Online for entering their DRDP ratings. Therefore, the teacher only needs one copy of the DRDP. Some programs choose to enter data into DRDP Online by scanning in ratings using an outside service. In those cases, a rating record will be needed for every child, each rating period. Teachers should still review and reflect on the evidence and documentation while reading the measure and level descriptors.

The DRDP instruments and the DRDP Rating Records can be found on the Web site at <https://desiredresults.us/drdp-forms>

What is the purpose of the DRDP Rating Record?

In order to maintain the validity and reliability of the DRDP, each time the teacher completes the DRDP,

teachers are asked to come to the rating with “fresh eyes.” The DRDP Rating Record is simply for the convenience of the teacher. Ratings for all rating periods must be entered into DRDP Online.

Is it okay to modify or skip measures from the DRDP?

All components of the DRDP are research-based. They work together to provide the child’s developmental profile along a continuum. The DRDP has gone through formative evaluations to demonstrate that it is a reliable and valid assessment instrument in its current form. Modifying or skipping measures compromises the reliability and validity factors.

Can observations be put directly into DRDP Online so information can be stored in one place?

Observations cannot be stored in DRDP Online.

Can a child demonstrate mastery of a developmental level on the DRDP in their home language?

Children in all age groups can demonstrate mastery of a developmental level in their home language. The teacher who completes the DRDP should speak the child’s home language or have assistance from another adult such as an assistant teacher or caregiver, director, or parent, who does speak the child’s home language. The exception is the English-language development measures.

Developmental Levels

After marking the highest developmental level (integrating) on the DRDP-Preschool can "Emerging to the next level" be marked?

No. Since there is not a next developmental level available for reference on the age level instrument, there is no definition of what a child would be emerging towards.

If a child reaches the last developmental level on an age level instrument, what should occur next?

Staff should continue documenting and observing the child and using the information to plan curriculum.

Will most preschoolers reach the integrating level prior to enrolling in kindergarten?

The DRDP research shows that most preschoolers will reach the building level by the end of their preschool years. In California, some children begin transitional kindergarten at age 4, kindergarten at age 5 or at age 6. The DRDP is calibrated to accommodate a broader range of abilities. There is some overlap both with the DRDP-Infant/Toddler instrument and the DRDP-K instrument in order to encompass the range of abilities.

If the first level has not yet been marked, can emerging be marked?

No. Emerging is a way of showing that the child is moving from the present developmental level to the next developmental level. Since there is no first developmental level, the child is not emerging from a developmental level to the next developmental level.

Is emerging a developmental level?

No. Emerging is used to show the child is beginning to demonstrate some of the skills, knowledge or behaviors at the next level. A developmental level must be marked first before marking emerging.

Availability of Training/Training Documents

Are training materials available on the website?

Training materials* are available on the Desired Results Web site under [Training/Materials](#). In addition, check out the [DRDP Resources](#) page for the Getting to Know You through Observation DVD and training workbook. It has many great ideas, plus clips of children to use for training. These materials are intended solely for use by state-funded agencies for educational purposes. Commercial use is not authorized without express permission.

Is there any other training available?

The Desired Results team offers 40+ [free webinars](#) in English and Spanish on a variety of topics such as how to navigate the [California Early Childhood Online \(CECO\) website](#), DRDP Online data and understanding reports, views of the DRDP assessment, DRDP Portfolio app, and much more.

DRDP Online [tip sheets](#), as well as [YouTube microlearning videos](#), are available. Desired Results also offers [fee-for-service teacher trainings](#).

Many free online modules are available on [California Early Childhood Online \(CECO\)](#). In addition to modules on the DRDP and Rater Certification, topics include Health and Safety, Integrated Learning, Family Partnership and Culture, Safe Sleep, Sesame Street modules and much more.

Is a training of trainer's available on the DRDP?

The [Desired Results Certified Trainer Institute](#) trains a cadre of trainers on the DRDP. The materials provided at the Desired Results Regional Training can be utilized for training staffs.

Where can I find a list of Desired Results certified trainers?

If you would like to know if a trainer is certified, please contact us. To schedule a training for your agency, please fill out the [Teacher Training Request Form](#).

Is there a training video or materials for the Desired Results Developmental Profile (DRDP)?

Online courses on the DRDP, Observation of Young Children, and Preschool English Learners may be available through [California Early Childhood Online \(CECO\)](#). Training materials are routinely posted on the Desired Results Web site <https://www.desiredresults.us/materials>

Is there also a state-adopted curriculum based on research from the Desired Results system as a guide?

Curriculum adoption is a local decision.

Using with Specific Programs

Is this instrument aligned with the Head Start (HS) framework?

Yes, it is. Alignment resources are available on the website <https://www.desiredresults.us/cdeelcd-resources>

How many times a year is the DRDP completed in a Head Start program?

The requirement for Head Start programs is "Aggregating and analyzing aggregate child-level assessment data at least three times per year." [Head Start Performance Standards 1307.3\(b\)\(1\) and 1307.3\(b\)\(2\)](#). Also: [Head Start Act, section 641A\(g\)\(2\)](#).

If the DRDP-PS is completed 3 times a year, as some programs require, are the results still valid?

Yes, the results will still be valid since the instrument is calibrated and not dependent on frequency.

Family Child Care Home Education Network

In a Family Child Care Home Education Network (FCCHEN), who may complete the Desired Results Developmental Profile (DRDP)?

The DRDP is to be completed by those agency staff members that are designated as teachers.

Are trained Family Child Care providers in a Family Child Care Home Education Network (FCCHEN) allowed to complete DRDP?

FCCHEN teachers are responsible for completing the DRDP. Agencies may call them specialists or coordinators. Certainly, family child care providers are encouraged to assist in collecting evidence and documentation of the child's growth and progress. However, since they are not employees or direct contractors of the state, they cannot be required to complete the DRDP unless it is part of the contract with the FCCHEN.

Preschool Learning Foundations

How does the Desired Results Developmental Profile (DRDP) relate to the foundations?

Foundations focus on nine domains: social-emotional development, language and literacy, English-

language development, mathematics, visual and performing arts, physical development, health, as well as history/social science. The foundations provide early childhood educators, parents, and the public with a clear understanding of the wide range of knowledge and skills that preschool children typically attain when participating in a high-quality preschool program. The DRDP is a child observation tool aligned with the foundations. The DRDP provides teachers with a means to assess children's learning along a continuum of four different developmental levels. The foundations and the DRDP are to be used together to plan the environment, play, learning activities and instruction to meet the needs of the children and provide a high-quality preschool experience.

Answers to Treasure Hunt

Treasure Hunt #1	Answer
1. First DRPD due	#1 and #2
2. Creative Curriculum	#32
3. Integrating Earlier	#21 and #22
4. FCCHEN	#36 and #37
5. Inclusive Classroom	#26
Treasure Hunt #2	
1. Which View	#5
2. Save Paper	#15 and #16
3. Portfolios	#8
4. All the Measures	#17
5. Training	#27

Compare and Contrast

GOALS:

The goal of this activity is for participants to identify similarities and differences among the three age level DRDP[®] instruments.

MATERIALS REQUIRED:

- Three age-level List of Measures within Domains
- Three age-level Navigation Maps

TIME: 10 minutes

ACTIVITY PROCESS:

1. Ask participants to pull out the three age levels of List of Measures within Domains and Navigation Maps.
2. As elbow partners or table groups, have participants find:
 - The one difference in developmental domains among the three age levels
 - Similarities and differences in the developmental levels among the three age-level instruments.

REFLECTION:

- Return to the large group. Solicit observations from the group.
- Point out the similarities in domains
- Point out the continuity of the developmental levels
- Point out the Infant/Toddler and Preschool versions have the same measures

4. If you are unable to rate this measure, explain here. ▶

Measure 1

Identity of self and connection to others

SSD 1 (of 9)

DRDP-PS, Copyright © 2010 California Department of Education — All rights reserved

**Desired Results Developmental Profile® (DRDP®)
Terms and Definitions**

- Developmental Domain:** A domain represents a crucial area of learning and development for young children. There are two domains in the DRDP-SA® (2010).
- Measure:** A measure focuses on a specific competency. A child's observed behavior is assessed along a continuum of developmental levels. Measures are the individual observational items on the DRDP-SA® (2010). Several measures make up a domain, with each measure covering one of the aspects of development included in that domain.
- Definition:** The definition of a measure specifies the aspect of development being observed.
- Developmental Level:** The developmental levels for each measure represent a developmental continuum. Each level specifies a point along the developmental continuum. In the DRDP-SA® (2010) Simplified Version, measures in the SSD domain have five developmental levels and measures in the HLTH domain have four developmental levels. The developmental levels are defined on page iii of the front matter of the DRDP-SA® (2010).
- Descriptor:** Each developmental level has a descriptor that describes observable child behaviors associated with that developmental level.
- Examples:** Each descriptor is illustrated with several examples of behaviors that are consistent with that developmental level. An example is one of many possible ways a child might demonstrate a particular developmental level. It is anticipated that teachers will identify other examples as they complete their observations.

DRDP® Developmental Domain Acronyms

SSD	Self and Social Development
HS	Health and Safety

DRDP (2015) Examples

GOALS:

Encourage participants to think beyond the provided DRDP examples which illustrate just some of the ways a child may demonstrate mastery.

MATERIALS REQUIRED:

- Copies of measures LLD5, COG 3, PD HLTH4, from the DRDP (2015)
- Post-its and writing implements

TIME: 20 minutes

PROCESS:

1. Divide a large group into small groups of three to five people or table groups.
2. Give each group a copy of one of the measures.
 3. Ask each group to write one more example at each of the developmental levels for that measure, and to put each one on a post-it.
 4. Ask group to pass their measure page and post-its to another table. That table sorts the new examples under the corresponding developmental levels.
 5. Switch back with original table. Have tables discuss any discrepancies.

REFLECTION:

Return to the large group. Review the activity and resolve any questions.

Developmental Domain: LLD — Language and Literacy Development

LLD 5: Interest in Literacy

Child shows interest in books, songs, rhymes, stories, and other literacy activities in increasingly complex ways

Mark the latest developmental level the child has mastered:

Responding		Exploring		Building			Integrating
Earlier	Later	Earlier	Later	Earlier	Middle	Later	Earlier
<p>Attends or responds to people or things in basic ways</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Quiets to the sound of a familiar voice. Moves in response to an approach by a familiar adult. Orients to an adult's face or voice during a caregiving routine. 	<p>Plays with books; and Responds to other literacy activities</p> <ul style="list-style-type: none"> Interacts with a cloth or board book by holding or mouthing it. Pats a textured board book. Vocalizes or laughs in response to an adult singing and gesturing a simple finger-play song, such as, "Pat-a-Cake" or "Los cinco dedos," ["Five Little Fingers," a finger play in Spanish]. 	<p>Attends briefly to a familiar adult reading books, singing songs, or saying rhymes</p> <ul style="list-style-type: none"> Looks at pictures in a book for a short time while a familiar adult reads the book. Reaches to turn the page of a board book as a familiar adult talks or signs about the pictures on the page. Uses simple hand movements to participate during a familiar song or rhyme with a familiar adult. Touches textured or tactile content on pages of a book as an adult is reading the book. 	<p>Looks at books on own briefly, or Chooses to join reading, singing, or rhyming activities led by an adult</p> <ul style="list-style-type: none"> Joins a group doing a simple finger play led by an adult. Points at a picture when joining an adult who is reading a book, newspaper, or tablet. Picks up a book and looks at pictures, turns a few pages, and then drops the book to go play. 	<p>Looks at books page by page, or Participates, from beginning to end, in listening to stories, singing songs, or playing rhyming games, when supported by an adult</p> <ul style="list-style-type: none"> Pretends to read a book from start to finish. Explores a book with Braille and tactile content with hands. Sings some words of a familiar song, from beginning to end, with an adult. 	<p>Initiates looking at and talking about books, listening to and talking about stories, singing songs, or playing rhyming games</p> <ul style="list-style-type: none"> Asks questions or communicates about why something happened in a story. Starts a song or rhyme with others while playing outside. Uses finger puppets while reciting a familiar rhyme. 	<p>Extends literacy activities by retelling a story, drawing pictures about a story, or acting out a story</p> <ul style="list-style-type: none"> Uses flannel-board pieces to retell parts of a story after story time. Retells a familiar story to a peer while pretending to read from a book. Uses a communication device to tell the sequence of events in a favorite story. Pretends to be a character from a story, using props. 	<p>Initiates literacy activities that relate to classroom experiences as well as to own experiences or interests</p> <ul style="list-style-type: none"> Chooses to read a book related to a particular theme or interest (e.g., dinosaurs or fairies). Asks for help finding a book about bugs after a nature walk. Participates, with others, in using the computer to create a story about a class trip. Makes up own version of rhyming song with peers' names.

- Child is emerging to the next developmental level
- Unable to rate this measure due to extended absence

LLD 5

Interest in Literacy

LLD 5

Developmental Domain: COG — Cognition, Including Math and Science
COG 3: Number Sense of Quantity
 Child shows developing understanding of number and quantity

Mark the latest developmental level the child has mastered:

Responding		Exploring		Building			Integrating
Earlier	Later	Earlier	Later	Earlier	Middle	Later	Earlier
<p>Responds to people or objects in basic ways</p> <p>Possible Examples</p> <ul style="list-style-type: none"> Looks at objects that are hanging from a mobile. Calm in response to a familiar adult's touch. Turns toward a familiar adult's voice. 	<p>Responds to changes in the number of objects observed or interacted with</p> <ul style="list-style-type: none"> Attends to one moving toy on a mobile, then to another. Grasps one toy, and then lets go of it while reaching for another toy that has been introduced by a familiar adult. Holds an object in each hand, and then touches the two objects together. 	<p>Demonstrates awareness of quantity</p> <ul style="list-style-type: none"> Communicates, "More," during lunch. Dumps small cars out of a bucket. Gestures for more when playing with play dough. Shows excitement when an adult offers another book. 	<p>Uses number names, but not always correctly, in situations related to number or quantity</p> <ul style="list-style-type: none"> Communicates, "Dos," ["Two," in Spanish] and holds up two cups in the play kitchen. Communicates, "One, two, five, one, two," while pointing randomly to objects in a group. Signs, "Two," in response to the question of "How old are you?" 	<p>Identifies small quantities without counting, up to three</p> <ul style="list-style-type: none"> Communicates a desire for two apple slices after noticing that a peer has two apple slices. Communicates, "Three dogs," while looking at a picture of three dogs. Communicates, "Now I have one bear and you have one," while giving a peer a stuffed bear. 	<p>Counts up to five objects using one-to-one correspondence; Recites numbers in order, one through ten</p> <ul style="list-style-type: none"> Counts out loud, "一, 二, 三, 四, 五," ["One, two, three, four, five," in Chinese] saying the next number as the next cup is placed on the table. Chants numbers from one to 10 in order while waiting for a tricycle. Counts, "One, two, three," out loud while pointing to each of three squares on a light box. 	<p>Shows understanding that the last number counted is the total number of objects in the group</p> <ul style="list-style-type: none"> Counts ducks in a storybook, "One, two, three, four, five," and then communicates that there are five. Communicates that there are six rocks after counting a collection of six rocks. Counts four pencils and says, "Apat," ["Four," in Tagalog] when asked how many pencils there are. 	<p>Solves simple everyday problems involving numbers by counting up to 10 objects using one-to-one correspondence; Recites numbers correctly, up to 20</p> <ul style="list-style-type: none"> Counts six chairs, then counts seven children, and communicates, "We need one more chair." Counts accurately to 20 while marching. Counts on fingers to determine how many napkins to get so that each child at a table of six has one.

- Child is emerging to the next developmental level
- Unable to rate this measure due to extended absence

COG 3

Number Sense of Quantity

PD-HLTH 4: Fine Motor Manipulative Skills

Child demonstrates increasing precision, strength, coordination, and efficiency when using muscles of the hand for play and functional tasks*

Mark the latest developmental level the child has mastered:

Responding		Exploring			Building			Integrating
Earlier	Later	Earlier	Middle	Later	Earlier	Middle	Later	Earlier
<p>Moves arms or hands in basic ways</p> <p>Uses arms or hands to make contact with objects in the environment</p> <p>Possible Examples</p> <ul style="list-style-type: none"> • Curts fingers around an adult's finger. • Brings fist to mouth. • Makes small movements of arms and hands near the sides of body. 	<p>Holds a stuffed toy against body.</p> <ul style="list-style-type: none"> • Pulls an object closer, using a raking motion. • Pushes hands against an adult. 	<p>Grasps objects with entire hand</p> <ul style="list-style-type: none"> • Uses fingers and palm to grasp toys of different shapes or sizes. • Holds a stacking ring with full fist. • Holds a spoon with full fist while being fed by an adult with another spoon. 	<p>Grasps objects with fingers and thumb</p> <ul style="list-style-type: none"> • Holds a spoon, using thumb and fingers. • Pinches cereal pieces between finger and thumb. • Picks up a stacking ring, using fingers and thumb. 	<p>Explores ways to use one hand, or to use both hands doing the same movements, to manipulate objects</p> <ul style="list-style-type: none"> • Lifts a cup to mouth with both hands, but may spill some. • Scribbles back and forth on pavement with sidewalk chalk, using one hand. • Grasps and turns a doorknob, but may not have strength or coordination to open the door. 	<p>Manipulates objects with one hand while stabilizing the objects with other hand or with another part of body</p> <ul style="list-style-type: none"> • Holds play dough with one hand while cutting it with a wooden knife. • Steadies a container of block accessories on lap while picking out the tree-shaped blocks. • Scoops sand into a container with one hand while holding the container with other hand. 	<p>Manipulates objects with both hands doing different movements</p> <ul style="list-style-type: none"> • Uses scissors to cut out simple shapes (e.g., circle, square) on paper. • Pushes a cord through a large bead, using one hand, while moving the bead onto the cord with the other hand. • Peels a banana or orange after adult starts the peel. • Buttons two to three large front buttons on a shirt. 	<p>Manipulates objects, using hands, with strength, accuracy, and coordination</p> <ul style="list-style-type: none"> • Takes a cap off of a marker by twisting with one hand, then pulling with both hands in opposite directions. • Starts the peel on a banana or mandarin orange. • Unfastens buckle on chest strap of wheelchair. • Fastens snaps on pants made of thicker, stiffer materials, such as denim jeans. 	<p>Performs, with efficiency, a variety of tasks that require precise manipulation of small objects</p> <ul style="list-style-type: none"> • Makes a necklace by stringing a variety of small beads with narrow holes. • Uses a computer mouse to draw details of a picture on a computer screen. • Rotates pencil within the hand to use the eraser when scribbling with a pencil. • Uses scissors to cut more challenging materials such as fabric or cardstock during an art activity.

* Children who do not have use of one or both hands may still be rated as demonstrating mastery at a level if they can accomplish the functional intent of the descriptor using other body parts, or prosthetic devices.

- Child is emerging to the next developmental level
- Unable to rate this measure due to extended absence

Practice Noticing Descriptions and Interpretations

Session 3

GOALS:

This activity is designed to give the participants practice in separating descriptive data from interpretive data. This activity also familiarizes participants with the components of observation skills.

MATERIALS REQUIRED:

Instruction page
Photo page
Post-Its
Descriptive/Interpretive Chart

TIME: 10 minutes

ACTIVITY PROCESS:

1. Discuss the importance of good observation skills as it relates to the DRDP.
2. Participants may work alone, with a partner, or in a small group.
3. Direct participants to view the picture on screen or in the binder.

Reflection:

Ask the participants to share insights with the entire group. Encourage discussion of “good” observation skills. Include thoughts on objectivity, directness, specificity, mood, and completeness. Some suggested questions are as follows:

- What judgments did you put on hold during the observation?
 - What specific details did you see in the photos?
 - How can you use descriptive details to determine the mood of the child?
- Does the photo give you any clues about the sequence of the event?
 - Discuss the following: the setting, who was involved, the actions in the order they occurred, the responses, the interactions, and the ending.

Adapted by permission from The Art of Awareness, ©2000 Deb Curtis & Margie Carter, Redleaf Press. St. Paul, Minnesota, www.redleafpress.org

Practice Noticing Descriptions and Interpretations

1. Look at the photos.
2. Using a post-it paper for each observation, record your reactions.

Example:

“He’s making a mess. I better stop him before he gets that black marker all over himself and his clothes.”

1. Place notes in appropriate side of the sheet - **Descriptive or Interpretive**
2. Review observations.
3. Sort them into categories termed **Descriptive and Interpretive**.
4. Use the following questions to guide your discussion:
 - Which observations have the details of what actually happened?
 - Which observations have your interpretation of what might have been occurring?
 - Compare your observations to the following examples:

Descriptive	Interpretive

Descriptive Example

“He has a black marker clutched in his left hand and he is making black marks around his belly button.”

Interpretive Example

“He is exploring how the marker feels and looks on his body.”

What do you see in these two photos?

Reprinted with permission from The Art of Awareness, ©2000 Deb Curtis & Margie Carter, Redleaf Press. St. Paul, Minnesota, www.redleafpress.org

DESCRIPTIVE	INTERPRETIVE

A Deeper Look at the Descriptors

GOAL: Gain deeper understanding of the skills and behaviors within each descriptor by comparing documentation and descriptors for Measures COG 5, COG 7, and COG 9.

MATERIALS REQUIRED:

- PowerPoint slides
- DRDP Measures COG 5, COG 7, and COG 9
- Video clip from 2:50-3:17 - LLD Foundations: Speaks Clearly
- Post it notes

TIME: 30 minutes

ACTIVITY PROCESS

1. Display the PowerPoint slide with the math video.
2. Participants read the descriptors for COG 5. Direct them to circle the word **or**, highlight the ; followed by the word **and**, and underline the word **and** when it connects two skills.
3. It is important to emphasize: 1) What ; followed by **and** means 2) What **and** means 3) What **or** means.
4. Participants compare their work with their neighbor's circles, highlights, and underlines to see if they identified them all. Make needed corrections or additions.
5. Discuss what the measure is assessing and what children might do for each of the developmental levels.
6. Repeat the process for COG 7 and COG 9.
7. Show the video clip and ask them to take notes on a post-it or a piece of paper.
8. What is this child able to do?
9. Which part(s) of the descriptor for COG 5 does the video address?
10. Which part(s) of the descriptor for COG 7 and COG 9 does the video address?

Session 3

LLD and ELD Directions Activity

GOAL:

Participants will be able to learn how to use and become familiar with the LLD and ELD measures.

MATERIALS REQUIRED:

- PowerPoint slides
- DRDP (2015) Preschool View
- Assessing Dual Language Learner handout

TIME: 15 minutes

ACTIVITY PROCESS:

1. Facilitator will show slide of the Instructions for Using the Language and Literacy Development (LLD) and English Language Development (ELD) Measures.
 2. Facilitator will ask participants to highlight question #12 inside the assessment and explain that if another language other than English is spoken in the child's home, they ELD measures must be completed.
 3. Facilitator will show slide of the Assessing Children that are Dual; Language Learners handout. Provide 8-10 minutes to read the handout and highlight what stands out to them.
4. After the reading, facilitator will chart responses from the group "What was important to you?"

REFLECTION:

Facilitator shows the slide of the Key Points for ELD & LLD and reviews the key points with the group.

OPTIONS:

1. Participants can partner read the article.
2. Participants can chart their own response on chart paper (the top 3 important themes from the handout).

A Quick Guide to the DRDP (2015): Assessing Children Who Are Dual Language Learners

Quick Guides to the DRDP (2015) provide useful information for better understanding and using the DRDP (2015). Please check out the other Quick Guides coming soon.

Young dual language learners are young children learning two or more languages at the same time, as well as those learning a second language while continuing to develop their first (or home) language. Many children arrive at school from homes where languages other than English are spoken. Overall, the development of language and literacy skills in a child's first (or home) language are important for the development of skills in a second language, and therefore, should be considered as the foundational step toward learning English.

Code Switching: A Typical Feature of Dual Language Development

When assessing young dual language learners, keep in mind that code switching is a feature of language development for children who are learning two or more languages. This is well documented in the research literature. Code switching is the use of multiple languages within a single conversation. Even when children mix their two languages they tend to honor the grammatical rules of each:

- "I want leche." ["I want milk" in English.] is an example of inserting a Spanish noun within an English sentence
- "¡And then el niño se cayó!" ["And then the boy fell down" in English.] is an example of using English linking words within a Spanish sentence

As early as three years of age, children code-switch to playfully experiment with the two languages and to serve their own social goals, such as to emphasize a point, elaborate, interrupt, honor the language preference of their listener, and be included or exclude other children as they negotiate new roles in social situations. Often code-switching is influenced by the context or purpose of the child's communication. For example they might code-switch when speaking with one person, or may almost exclusively use one language with one person and then another language with another person.

Understanding the Language and Literacy Development (LLD) Measures and the English-Language Development (ELD) Measures in the DRDP (2015)

The measures in the Language and Literacy Development (LLD) domain are used to assess all children's progress in developing foundational language and literacy skills, which can be demonstrated in any language. The young dual language learner may demonstrate knowledge and skills related to language and literacy development in their home language, in English, or in both languages.

The measures in the English Language Development (ELD) domain are used to assess the progress in learning to communicate **in English** of **preschool-age** children who are in a home environment where a language other than English is spoken. The developmental progression articulated by the ELD spoken measures is not age-related but rather indicative of a child's experiences with English. Children who are dual language learners will vary substantially in their acquisition of English language competencies, depending on factors such as the degree of exposure to English, level of support provided in their home language, and their motivation to acquire English.

For children who speak English at home, the assessor will complete the LLD measures only. Still, assessors should keep in mind that children who speak English at home may begin to use some words and phrases from other languages that they learn from their peers and adults in the classroom, family friends, the broader community, and the media. Children may also begin to mix these words and phrases with English. This experimentation with other languages contributes to children’s overall development of language and literacy skills.

Remember: for all children (infants, toddlers, and preschool-age) the assessor will complete the LLD measures. For preschool-age children who are dual language learners the assessor will complete both the LLD and the ELD measures.

Collecting Documentation for Young Dual Language Learners

Children who are dual language learners may demonstrate knowledge and skills in their home language, in English, or in both languages. Communication in all languages the child uses should be considered when the Language and Literacy Development (LLD) measures of the DRDP (2015) are completed, as well as measures in the other domains.

The assessor who completes the instrument for a child who is a dual language learner should speak the child’s home language. If not, the assessor must receive assistance from another adult who speaks the child’s home language, for example an assistant teacher, a program director, an interpreter, or an adult family member who does speak the child’s home language. If the adult who speaks the child’s home language is not the child’s family member or the assistant teacher in the child’s class, the program should make arrangements for the adult and child to have time to interact. The adult can then communicate what s/he observes during the interaction to the assessor.

Completing a Child's Developmental Progress Form

Session 3

GOALS:

The goal of this activity is for the participants to practice completing a Child's Developmental Progress form.

MATERIALS REQUIRED:

- Copies of observation notes and portfolio for preschool child
- Copies of a completed DRDP or use the completed sample from the previous activity
- Copy of blank Child's Developmental Progress Form
- Copy of completed sample Child's Developmental Progress form

TIME: 30
minutes

ACTIVITY PROCESS:

1. Explain that the Child's Developmental Progress Form is used during the parent conferences to describe an individual child's development. Teachers use this form to summarize adult observations, developmental profile data, and parent conference notes. Avoid using DRDP terminology with parents, as it may be difficult for them to understand. When discussing a child's developmental progress, talk about his or her strengths, areas for improvement, and goals he or she should meet. Write parent feedback on the form.
2. Have participants work in table groups.
3. Ask each small group to review the preschool portfolio and completed DRDP
4. Using the DRDP as a reference, have each group identify three strengths and at least one area needing improvement to report to the parents. Find one way that the program can help the preschooler learn and develop. Collaborate with the family on one or more ways that the preschooler could be supported at home.
5. Each group may record this information on a blank progress form.

REFLECTION:

1. Distribute the completed sample progress form. Explain that there are many ways to complete the form. Ask the participants how the information provided by this imaginary teacher compares with what they wrote.
2. Discuss any remaining questions the participants may have about using the summary form.
3. While programs may not delete any of the fields from the Child Developmental Progress Form, additional information may be added.

Child's Developmental Progress

Child's Name: _____

Date of Conference: _____

Agency/Site: _____

This form describes your child's developmental progress in achieving four broad desired results for all children:

- ❖ Children are personally and socially competent
- ❖ Children are effective learners
- ❖ Children show physical and motor competence
- ❖ Children are safe and healthy

Your child's strengths include...

Areas your child is currently working on include...

We (teachers, caregivers, families) can help your child learn and develop in the program by...

You can help your child learn and develop at home by...

Person Conducting the Conference

Name: _____

Summary of Your Child's Developmental Progress [SAMPLE]

This summary describes your child's developmental progress in achieving four broad desired results for children:

- Children are personally and socially competent.
- Children are effective learners.
- Children show physical and motor competence.
- Children are safe and healthy.

Your child's strengths include:

- Amy has formed friendships with many children in the program. She is willing to listen to others during conflict and tries to provide solutions when asked. Amy has expressed concern for her friends when they are hurt or feeling sad.
- Amy spends time engaged in dramatic play. This play continues from day-to-day, repeating over many days.
- Amy has begun to express interest in attempting to write down her stories, making wavy lines across the paper to look like writing.
- She uses the climbing structure, bikes in the yard, and practices her climbing, running, jumping and galloping.

Areas your child is currently working on:

- Amy is exploring number concepts, counting and quantities to five.
- Amy spends a lot of time drawing or writing symbols for her stories. This is one of the first steps in reading and writing.
- She practices putting on her shoes and socks regularly, requesting assistance when needed.

We can help your child learn and develop by...

In the program

- Providing support to help her use letters in her writing attempts through dictation.
- Providing opportunity and materials for her to practice use of numbers and math ideas.
- Allowing Amy increased opportunity to orally share her ideas in conversation.
- Adding new materials to the outdoor environment that offer Amy more challenging experiences to further develop her motor skills.

At home

- Talk with Amy about any activities that may have happened that day.
- Read and tell stories at home, pointing out familiar words and asking questions about what you read.
- Help Amy recognize letters in her name and other familiar letters in print.
- Inform us of any progress, questions or ideas you may have regarding Amy's development.

Writing a Summary of Findings

GOAL:

Practice identifying key findings using the Class Planning Report and the DRDP Classroom Summary of Findings. Participants will gain experience writing a summary of finding.

MATERIALS REQUIRED:

- Copies of the DRDP Summary of Findings
- Copies of the Classroom profile
- Class Planning Report for either preschool or infant/toddler
- Sample of completed DRDP Classroom Summary of Findings form

TIME: 30-45 Minutes

ACTIVITY PROCESS

1. Have participants read the age appropriate Classroom Profile to know more about the classroom.
2. Work in small groups. Have each group identify key findings from the domains and measures presented in the classroom planning report.
3. Ask each group to discuss the questions provided for the domains and measures. Have the groups then complete the DRDP Classroom Summary of Findings form.
4. Return to the large group. Ask one member from each small group to share with the large group the group's discussions and completed forms. Discuss any remaining questions or concerns.

DRDP: Preschool Group Data Profile

Program:

- 3.5 hours per day
- Data collected Fall 2018

Children:

- 18 children enrolled
- Age Range 3.5 – 5 years
 - 2 four-year-old with Individual Education Program (IEP)
 - 11 Dual language learners
 - 5 children are 3.5 years of age
 - 4 children are 4 years of age
 - 9 children are 5 years of age

Staff:

- 2 teachers & 1 teacher's assistant
 - 1 teacher is English speaking only
 - 1 teacher is bilingual (Spanish & English)
 - Teacher assistant is bilingual (Chinese & English)

Reflective Questions for Teachers about the Planning Process

1. What does the data tell me about my classroom, groups of children and individual children?
 - What are areas of strength?
 - What are the areas that I need to focus on?
2. Do I know where my children should be developmentally at 48 and 60 months?
3. Have I looked at the Preschool Curriculum Framework for strategies that will support children's area of need at the domain level? At the strand level?

In the following questions, consider focus areas as well as areas of strength:

1. What changes can I make to my classroom environment to support children's learning and development? (Consider what you already know about classroom environments; refer to the ERS or framework.)
2. What can I do during the course of the daily routine to support children's learning and development? (Consider what you already know and refer to the framework.)
3. What can I do in my interactions with children to support their learning and development? (Consider what you already know and refer to the framework.)
4. What types of teacher-guided activities can I plan that would support children's learning and development during:
 - Large group time (preschool)
 - Individual or small group time
 - Transitions
 - Outdoor time
5. What types of child initiated activities can I plan that would support children's learning and development during:
 - Large group time (preschool)
 - Individual or small group time
 - Transitions
 - Outdoor time
6. What am I doing for the children who are either at a later level of development or an earlier level of development than most of their peers?

DRDP: Infant Toddler Group Data Profile

Program:

- State Funded Full day program
- Data collected Fall 2018

Children:

- 7 children enrolled
- Age range 16 months – 36 months of age

Staff:

- 1 teacher & 1 teacher's assistant
 - 1 teacher is English speaking only
 - Teacher assistant is bilingual (Spanish & English)

Reflective Questions for IT Teachers about the Planning Process

1. What does the data tell me about my classroom, groups of children and individual children?
 - What are areas of strength?
 - What are the areas that I need to focus on?
2. Do I know where my children should be developmentally at 8, 18, and 36 months?
3. Have I looked at the Infant Toddler Curriculum Framework for strategies that will support children's area of need in a specific domain(s)?

In the following questions, consider focus areas as well as areas of strength:

1. What changes can I make to my classroom environment to support children's learning and development? (Consider what you already know about classroom environments; refer to the ITERS or Curriculum Framework.)
 - a. How might I create opportunities for infants/toddlers to explore?
 - b. What strategies do infants & toddlers use to explore?
 - c. How might I add complexity and problems?
2. What am I doing during the course of the daily routine (feeding, diapering, greeting, departing, outdoor time, etc.) to support children's learning and development? (Consider what you already know and refer to the framework.)
 - a. How might I create opportunities for infants/toddlers to explore?
 - b. What strategies do infants & toddlers use to explore?
 - c. How might I add complexity and problems?
3. What can I do in my interactions with children to support their learning and development? (Consider what you already know and refer to the framework).
 - a. How might I encourage language, motor development, social skills?
 - b. How do I meet children's individual needs?
 - c. How might I add complexity and problems?
4. What am I doing for the children who are either at a later level of development or an earlier level of development than most of their peers?

Instructions and Template for Completing the Desired Results Developmental Profile–Summary of Findings

California Department of Education
Early Education Division
EED-3900, March 2022

A critical step toward supporting children’s learning and developmental progress is for California State preschool Program (CSPP) teachers to complete a Desired Results Developmental Profile (DRDP) for each child in the classroom or family child care home. Teachers should refer to the individual developmental profiles and the summary of all the developmental profiles for the classroom or home setting, as a guide for ongoing planning.

To help ensure DRDP data is linked to ongoing classroom or group planning for children, the DRDP–Summary of Findings, form EED-3900 has been developed as a resource. The DRDP–Summary of Findings is a recommended form to assist teachers and providers in the planning process. Regardless of whether this resource is used or the program develops their own form, the written process must be completed and include all information detailed below, to ensure activity plans reflect the results of classroom or family child care home DRDP data.

Form EED-3900 includes Key Finding(s), Action Steps, Expected Completion Date and/or Ongoing Implementation and Persons Responsible, and Follow-up and Reflection. The first three sections of this form are completed after the first 60–90-day observation period. The Follow-up section should be completed periodically, with Reflections recorded after the six-month follow-up observation period to document progress of the Key Finding(s).

Contractor Information Instructions

- Contractor Legal Name
- Center-Based or Family Childcare Home
- Planning Date–this is the date the first three sections of the form are completed
- Lead Planner Name and Position
- Follow-up Date(s)–these dates indicate when the Action Steps have been reviewed during the following six months
- The Follow-up Date will also indicate when reflections are recorded (see Follow-up and Reflection below)

Findings from Developmental Profiles Instructions

- Summarize and review the results of the DRDPs after the first 60–90-day observation period
- Identify trends or patterns in the children’s development (key findings) at the domain level based on individual information that has been summarized to create a group summary of data

Action Steps Implementation Instructions

- Develop and write attainable Action Steps to improve the key finding(s).
- Action Steps should include new approaches, modifications, and/or changes to:
 - Planned learning opportunities, indoors, and outdoors
 - Interactions and strategies to support the development of the key findings
 - The environment and materials
 - Strategies that help families engage in supporting the development of their child
- The following are resources for teachers and providers when developing Action Steps:
 - *The California Preschool Curriculum Framework, Volumes 1–2* may be found on the California Preschool Curriculum Framework web page at <http://www.cde.ca.gov/sp/cd/re/psframework.asp>
 - *The Guidelines for Early Learning in Child Care Home Settings* (PDF), is located at <http://www.cde.ca.gov/sp/cd/re/documents/elguidelineshome.pdf>

Expected Completion Date and/or Ongoing Implementation and Persons Responsible Instructions

- Enter the date when the Action Steps will be completed
 - Enter “Ongoing” when the Action Step implementation will continue throughout the year
- Identify the key person(s) who will be responsible for each Action Step

Follow-up and Reflection Instructions

- Periodically review the status of all the Action Steps, completion dates, persons responsible, and follow-up

- Record modifications or changes needed to complete the Action Steps, and expected completion dates
- After the six-month follow-up observation period, tally and review the results of the DRDPs
 - Reflect on the results and record progress or changes made to the key finding(s), including data

Desired Results Developmental Profile–Summary of Findings

Contractor Legal Name: [Enter Contractor Legal Name]

Center-based or Family Childcare Home: [Enter Center-based or Family Childcare Home]

Planning Date: [Enter Planning Date]

Lead Planner Name and Position: [Enter Name and Position]

Follow-up Date(s): [Enter date(s)]

Follow-up Lead Planner Name and Position: [Enter Follow-up Lead Planner Name and Position]

Key Findings from Developmental Profile

Developmentally, what do we know about the children currently enrolled in our classroom or family childcare home?

[Enter what is known about the children currently enrolled in our classroom or family childcare home]

Actions Steps (Including planned learning opportunities, interactions and teaching strategies, environment and materials, family engagement)

What goals can we set to meet the needs of the children currently enrolled in our classroom or family childcare home?

[Enter what goals to meet the needs of the children currently enrolled in our classroom or family childcare home]

Expected Completion Date and/or Ongoing Implementation and Person Responsible:

How do we accomplish our goals?

[Enter goals accomplished]

Follow-up and Reflection (Changes made, date completed, time extended)

[Enter follow-up and reflection]

Desired Results Developmental Profile–Summary of Findings

Contractor Legal Name: **Happy Day Preschool**

Center-based or Family Childcare Home: **Center Based**

Planning Date: **October 14, 2022**

Lead Planner Name and Position: Ms. Baker – Lead Teacher

Follow-up Date(s):

November 15, December 15, January 15. and February 15

Follow-up Lead Planner Name and Position:

Mr. Brown and Ms. Woods (Associate Teachers)

Key Findings from Developmental Profile

Developmentally, what do we know about the children currently enrolled in our classroom or family childcare home?

42% of the class is at Building Earlier in the COG domain

Actions Steps (Including planned learning opportunities, interactions and teaching strategies, environment and materials, family engagement)

What goals can we set to meet the needs of the children currently enrolled in our classroom or family childcare home?

- 1. Give families handout (at quarterly parent meeting in November) on how to develop children's mathematical reasoning in daily events by asking questions and allowing children to come up with different solutions**
- 2. Teachers will model mathematical language, by thinking out loud when talking with children and describing the child's actions using math concepts.**
- 3. Implementing patterning and shape activities in morning circle three times a week.**

Expected Completion Date and/or Ongoing Implementation and Person Responsible:

Mr. Brown will create “go home math boxes” and include a set of open ended questions for all families, by November 15

Ms. Woods will research the Foundations and create a list of mathematical terminology for teachers to use during small group. There will be 2 new focus words every week. Done by November 15 and then ongoing.

Ms. Baker will include 3 dimensional shapes and unusual shapes in the morning circle three times a week.

Follow-up and Reflection (Changes made, date completed, time extended)

AND - When it connects two skills in the DRDP (skills or behaviors are **highlighted** in the descriptor). BOTH of the skills, or behaviors, must be observed in ONE observation.

If the descriptor uses ; and, then the behavior may be observed in two separate observations.

Measure	Developmental Level & Descriptor
ATL-REG 2: Self Comforting	<u>Building Earlier:</u> Anticipates need for comfort and prepares self by asking questions, getting a special thing, or in other ways
ATL-REG 5: Self Control of Feelings and Behaviors	<u>Responding Later:</u> Seeks a familiar adult when distressed, and responds when physically comforted by a familiar adult
ATL-REG 7: Shared Use of Space and Material	<u>Exploring Later:</u> Takes and plays with materials of interest, even when they are being used by another child
SED 3: Relationships and Social Interactions with Familiar Adults	<u>Responding Later:</u> Shows a preference for familiar adults and tries to interact with them <u>Exploring Earlier:</u> Interacts in simple ways with familiar adults and tries to maintain the interactions <u>Integrating Earlier:</u> Works cooperatively with familiar adults, over sustained periods, to plan and carry out activities or to solve problems
SED 5: Symbolic and Sociodramatic Play	<u>Integrating Earlier:</u> Engages in pretend-play sequences with others by organizing and negotiating roles or rules around a shared elaborated idea
LLD 5: Interest in Literacy	<u>Building Middle:</u> Initiates looking at and talking about books, listening to and talking about stories, singing songs, or playing rhyming games
ELD 1: Comprehension of English (Receptive English)	<u>Exploring English:</u> Attends to interactions in English and sometimes participates in activities conducted in English; and Shows understanding of a few common English words in familiar contexts or routines
COG 2: Classification	<u>Building Later:</u> Sorts objects into two or more groups based on one attribute, then puts all the objects together and re-sorts the entire collection into new groups <u>Integrating Earlier:</u> Sorts objects into groups based on at least two attributes, sometimes sorting by one attribute and then subdividing those groups based on a second attribute
COG 4: Number Sense of Math Operations	<u>Exploring Later:</u> Manipulates objects and explores the change in the number in a group
COG 6: Patterning	<u>Exploring Earlier:</u> Notices and responds to simple repeating sequences

Measure	Developmental Level & Descriptor
COG 7: Shapes	<p><u>Building Earlier:</u> Matches similar shapes and distinguishes them from dissimilar shapes without necessarily naming them</p> <p><u>Integrating Earlier:</u> Describes several shapes and the differences between them</p>
COG 9: Inquiry Through Observation and Investigation	<p><u>Building Middle:</u> Observes objects and events of interest in the environment, makes simple predictions about them and checks the predictions</p> <p><u>Integrating Earlier:</u> Contributes to planning and carries out detailed observations and complex investigations to answer question of interest</p>
PD-HLTH 1: Perceptual-Motor Skills and Movement Concepts	<p><u>Building Later:</u> Anticipates and then adjusts, on own, aspects of movement (e.g., effort, spatial, directional) in relation to people and objects in familiar spaces</p> <p><u>Integrating Earlier:</u> Anticipates and then adjusts aspects of movement (e.g., effort, spatial, directional) during new activities, in changed environments, or on different surfaces</p>
PD-HLTH 2: Gross Locomotor Movement Skills	<p><u>Building Middle:</u> Coordinates and controls individual locomotor movements, with some success</p> <p><u>Building Later:</u> Combines and coordinates two or more locomotor movements together in effective ways with some success</p> <p><u>Integrating Earlier:</u> Combines a variety of locomotor movements and moves effectively across a range of activities</p>
PD-HLTH 6: Personal Care Routines: Hygiene	<p><u>Building Later:</u> Initiates and carries out most steps of familiar hygiene routines on own</p> <p><u>Integrating Earlier:</u> Initiates and completes familiar hygiene routines on own</p>
HSS 4: Conflict Negotiations	<p><u>Building Later:</u> Uses appropriate words and actions to express desires in response to conflict situations, and suggests simple cooperative solutions based mainly on own needs</p>
VPA 3: Drama	<p><u>Building Later:</u> Creates and maintains details of a character when contributing to an improvised drama (e.g. dialogue, plot, setting) without adult prompting</p>
VPA 4: Dance	<p><u>Building Middle:</u> Tries out a variety of movements through space, with some body control and awareness, in response to music, rhythms, others' movements, or adults' cues</p> <p><u>Building Later:</u> Produces dance like movements with increasing body control and awareness, in response to music, tempo, rhythms, others' movements, or adults' cues</p> <p><u>Integrating Earlier:</u> Improvises dances by changing tempos (e.g., fast/slow) and by varying qualities of movements (e.g., big/small, high/low, smooth/jerky) in response to music</p>

Preschool Fundamental View Conditional Measures

- The nine conditional measures highlighted in yellow are required for preschool-age children with IEPs.
- The four in green are required for children who have a language other than English spoken in the home.
- For more information, please reference the DRDP (2015), p. Intro-4, below.

Conditional Measures for Preschool-Age Children	
<p>Some measures in the <i>DRDP Preschool View</i> are considered conditional measures that are only assessed when certain conditions are met. These measures should be used if they assist teachers and service providers in planning a child's learning activities and supports, and documenting progress.</p> <p>Conditional measures are used in three instances:</p> <ul style="list-style-type: none"> • If a preschool child has not developmentally moved beyond the four earlier-development measures. • If a language other than English is spoken in the child's home. • If the child is still working on the health measures (required for all children with IEPs). <p>Please note that the <i>Earlier Development Measures</i>, and the <i>Physical Development and Health measures</i> are required for children with IEPs.</p>	
Measure	Conditions Under Which to Assess
<p>Earlier Development Measures</p> <p>ATL-REG.1: Attention Maintenance ATL-REG.2: Self-Comforting ATL-REG.3: Imitation DOC.1: Spatial Relationships</p>	<ul style="list-style-type: none"> • Required for all infants and toddlers • Required for all preschool-age children with IEPs • Recommended for a preschool-age child whose development is not beyond the latest developmental level • If useful, select any or all of these four measures to assess
<p>English-Language Development Measures</p> <p>ELD.1: Comprehension of English (Receptive English) ELD.2: Self-Expression in English (Expressive English) ELD.3: Understanding and Response to English Literacy Activities ELD.4: Symbol, Letter, and Print Knowledge in English</p>	<ul style="list-style-type: none"> • Used if a language other than English is spoken in the child's home as indicated on the Information Page • Used only with preschool-age children • Not used with children who are deaf or hard of hearing and not learning spoken language • If rated, complete all of the measures in the ELD domain*
<p>Physical Development and Health Measures</p> <p>PD-HLTH.5: Safety PD-HLTH.6: Personal Care Routines: Hygiene PD-HLTH.7: Personal Care Routines: Feeding PD-HLTH.8: Personal Care Routines: Dressing PD-HLTH.10: Nutrition</p>	<ul style="list-style-type: none"> • Required for all infants and toddlers except PD-HLTH.9 and 10 which are for preschool children only • In the Comprehensive View, PD-HLTH.7 and 8 are conditional. In the Fundamental View, PD-HLTH.5-8 and PD-HLTH.10 are conditional. • Required for all preschool-age children with IEPs • Recommended for preschool children when this information would be useful for documenting progress or planning this child's learning activities and supports

*Guidance for rating ELD measures for children who are dual language learners is provided in the section, "Young Dual Language Learners and the DRDP (2015)" on page Intro-2.

Child Progress Report Guidance for Teachers

The Child Report provides information about a child’s knowledge, skills, and behaviors across a range of developmental domains¹ that are aligned with California’s early learning and development foundations.² Educators may use the results to guide individual instruction and modify curriculum; they may also share them with families and other providers in order to better understand and plan support for each child’s learning and development. Along with a system for organizing ongoing observation notes and completing the Desired Results Developmental Profile (DRDP) (2015), the Child Report provides teachers, service providers, and families with information about a child’s development, indicating areas of strength and areas for further support.

What information is displayed on the Child Progress Report?

- The Child Report displays the child’s domain ratings for the DRDP (2015) for the assessment period, indicated at the top of the page.
- A color-coded legend of the developmental levels of the DRDP (2015) is displayed at the top of the page. Not all developmental levels are available in each domain.
- The infant and toddler report displays each of the five domains assessed in the DRDP (2015) Infant/Toddler Views.
- The preschool report displays whichever of the domains that are assessed in the DRDP (2015) Preschool Views. Depending on the view selected, it may break out the Language and Literacy Development domain into Language and Literacy subdomains and display ratings for each separately. The Cognition domain breaks down into Math and Science. The Physical Development – Health domain breaks down into the Physical Development and Health subdomains.

What are the features of the Child Progress Report?

A **domain scale** portrays the developmental progression of knowledge, skills, and behaviors encompassed by the collection of measures included in each DRDP (2015) domain.³ When looking at the measures on the DRDP (2015) instrument, each level appears to be an equal developmental distance from the other. However, as children grow and develop, some knowledge and skills take more time to master than others. These differences in development are expected and are represented by differing widths of the developmental levels in the domain scale; these widths are the same for all children. The location of the marker on each domain scale is unique to each child.

The child’s ratings for each measure in the domain are statistically transformed to create the overall **domain scaled score**, by calculating an estimate of that child’s developmental level in that domain based on their ratings on each individual measure in the domain. For example, all measures in the Social and Emotional Development (SED) domain are used to calculate the domain scaled score for SED. The vertical line on each domain scale indicates the child’s scaled score along the domain scale.

The **standard error** line is the horizontal line through the domain scaled score. Statisticians refer to the level of precision as “standard error.” The standard error line represents the range on which one can be confident that a child’s true level of development lies. All standardized instruments have standard errors. This provides an indication of the precision of the domain score. The size of the standard error depends on a number of factors, including the number of measures that are available to be rated. A larger standard error line does not indicate a problem with a teacher’s ratings. The **DRDP (2015) domain icon** represents the developmental domain from the DRDP (2015) and generally represents the associated domain in the California Department of Education’s early learning and development foundations.

The **DRDP domain/subdomain name** represents the abbreviation and full name of the DRDP (2015) domains and subdomains.

¹ Wherever the term domain is presented, it also refers to the subdomain.

² For more information about California Early Learning and Development Foundations, visit <http://www.cde.ca.gov/sp/cd/re/cddpublications.asp>

³ The domain scale is statistically derived from the distribution of response patterns for the measures in that domain.

⁴ For more information about standard error, see the Child Report Technical Guidance document.

Understanding the domain scale

All of the levels for each measure follow a progression from early infancy (on the left), to kindergarten entry (on the right), like on the DRDP (2015) instrument. The DRDP (2015) instrument represents the developmental levels as equal intervals.

Developmental Domain: SED — Social and Emotional Development							
SED 4: Relationships and Social Interactions with Peers							
Child becomes increasingly competent and cooperative in interactions with peers and develops friendships with several peers							
Mark the latest developmental level the child has mastered:							
Responding		Exploring		Building			Integrating
Earlier ○	Later ○	Earlier ○	Later ○	Earlier ○	Middle ○	Later ○	Earlier ○
Shows awareness of other people, including children	Shows interest in other children	Plays alongside other children, rarely interacting with them	Interacts in simple ways with familiar peers as they play side by side	Participates in brief episodes of cooperative play with one or two peers, especially those with whom child regularly plays	Participates in extended episodes of cooperative play (including pretend play) with one or two friends	Initiates sustained episodes of cooperative play (including pretend play), particularly with friends	Organizes or participates in planning cooperative play activities with several peers, particularly with friends

Figure 1. Developmental progression for a sample measure.

A group of measures forms each domain. Each domain scale reflects the psychometric transformation of the developmental levels of the measures within that domain into a scale that is based on the data collected during the calibration studies of the DRDP (2015).

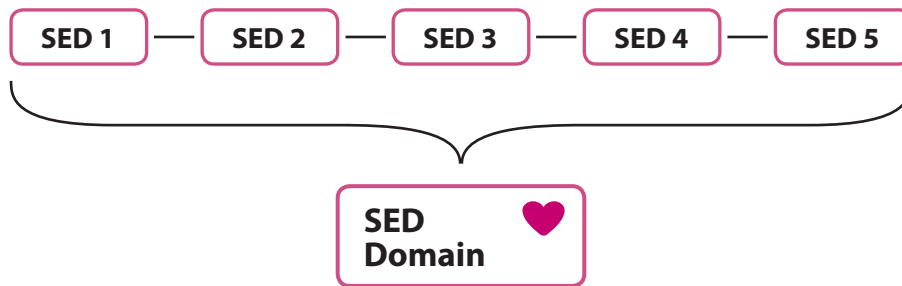

Figure 2. Measures form a domain.

Developmental levels on a domain scale that are represented with greater widths will typically take longer for children to master than developmental levels that are represented with lesser widths. The domain scale represents an overall developmental progression; however, it may take more or less time for an individual child to master a level.

Figure 3. Developmental levels are represented by different widths.

If a child stays in a particular level for what appears to be an extended period of time, it is important to consider that the child may still have made gains within that domain. A teacher's observation notes, participation in classroom learning activities, and ongoing curriculum data (and other documents) can provide additional information about a child's learning and development.

The variation between developmental levels within and across each domain scale means that a child who demonstrates mastery at the Exploring Later level in one domain, for example, will not necessarily demonstrate mastery at Exploring Later in every other domain. Even when a child’s ratings are both at the Exploring Later level across two domains, the vertical domain rating line may not be in the same place on each of the domain scales.

Figure 4. Placement of the developmental levels is unique to each domain.

How can the information in the Child Report be used?

The Child Report assists in understanding children’s development and curriculum planning by:

- Highlighting broad areas of strength and areas that may require further support for an individual child.
 - Domain markers that are further to the left indicate earlier levels of development; domain markers further to the right indicate later levels of development.
- Providing an at-a-glance view of a child’s learning and development related to a child’s overall progress toward California’s early learning and development foundations.
 - When looking at the location of the domain rating, consider whether it is near the early end of the level or the later end of the level and then consider whether to focus instructional planning within the current level or at the next level.
 - The standard error line indicates whether a given child’s current level of development squarely falls within one level on the domain scale or whether the child is likely to be transitioning to the next developmental level and assists with focusing instructional planning.
- Displaying the different developmental distances of the levels and giving teachers more information about how much difficulty is associated with each level.
 - Developmental levels on a domain scale that are represented with greater widths will typically take longer for children to master than developmental levels that are represented with lesser widths.

How should the information in the Child Report *not* be used?

- It should **not** be used to determine eligibility for preschool, transitional kindergarten, or kindergarten.
- The information is **not** intended to be the only source of information that teachers or service providers use in understanding children’s development.
- It should **not** be used to determine the developmental age for a child.

For more information about the DRDP (2015) refer to www.desiredresults.us and www.draccessreports.org.

Group Report Guidance

The Group Report provides information about a child’s knowledge, skills, and behaviors across a range of developmental domains¹ that are aligned with California’s early learning and development foundations.² Educators may use the results to guide instruction, modify curriculum, and plan program improvement activities.

What information is displayed on the Group Report?

- The Group Report displays results for a user-defined group of children. For example, this might include the group of children comprising a caseload, classroom, or program.
- The Group Report displays, for a group of children, the median domain for the DRDP (2015) for the assessment period indicated at the top of the page.
- A color-coded legend of the developmental levels of the DRDP (2015) is displayed at the top of the page. Not all developmental levels are available in each domain.
- The infant and toddler report displays each of the five domains assessed in the DRDP (2015) Infant/Toddler Views.
- The preschool report displays whichever of the domains that are assessed in the DRDP (2015) Preschool Views. Depending on the view selected, it may break out the Language and Literacy Development domain into Language and Literacy subdomains and displays ratings for each separately. The Cognition domain breaks down into Math and Science. The Physical Development – Health domain breaks down into the Physical Development and Health subdomains.

What are the features of the Group Report?

A domain scale portrays the developmental progression of knowledge, skills, and behaviors encompassed by the collection of measures included in each DRDP (2015) domain.³ When looking at the measures on the DRDP (2015) instrument, each level appears to be an equal developmental distance from the other. However, as children grow and develop, some knowledge and skills take more time to master than others. These differences in development are expected and are represented by differing widths of the developmental levels in the domain scale; these widths are the same for all children.

The location of the marker on each domain scale indicates the **group domain rating** for the group of children. Each child’s domain scaled score is based on the estimate of that child’s developmental level in that domain based on their ratings on each individual measure in the domain. The group domain rating is the “middle value” of each of those domain scaled scores for a group of children. For example, if there are 10 children in the group, the group domain rating is the median of those 10 individual domain scaled scores. In this instance, for five (half) of the children, domain ratings are to the left of the median, and to the right of the median for the other five (half) of the children.

The **number of children** represents the number of children within the selected group with a domain rating for that domain. Note: This number may differ between domains if domain ratings are not present for all children in the group.

The **percent (number) of children in the level** represents the percentage and number of children in the group whose domain ratings are located within a developmental level.

The **DRDP (2015) domain icon** represents the developmental domain from the DRDP (2015) and generally represents the associated domain in the California Department of Education’s early learning and development foundations.

The **DRDP domain/subdomain** name represents the abbreviation and full name of the DRDP (2015) domains and subdomains.

¹The term *domain* also refers to the related subdomain.

²For more information about California’s early learning and development foundations, visit <http://www.cde.ca.gov/sp/cd/re/cddpublications.asp>

³The domain scale is statistically derived from the distribution of response patterns for the measures in that domain.

Figure 1. Developmental progression for a sample measure.

A group of measures forms each domain. Each domain scale reflects the psychometric transformation of the developmental levels of the measures within that domain into a scale that is based on the data collected during the calibration studies of the DRDP (2015).

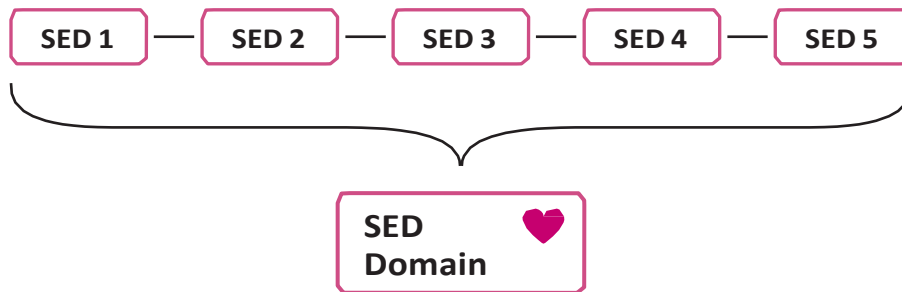

Figure 2. Measures form a domain.

Developmental levels on a domain scale that are represented with greater widths will typically take longer for children to master than developmental levels that are represented with lesser widths. The domain scale represents an overall developmental progression; however, it may take more or less time for an individual child to master a level.

Figure 3. Illustration of how developmental levels are represented by different widths.

Like in the Child Progress Report, the variation between developmental levels within and across each domain scale means that a group domain rating at one level in a domain may not be at the same level in another domain. Even when the distribution of individual children’s domain ratings looks similar across two domains, the group domain rating line may not be in the same place on the domain scales.

Figure 4. Illustration of how developmental levels are located in different places across domains.

How can the information in the Group Report be used?

The Group Report assists in understanding children’s development and in curriculum planning by providing an at-a-glance view of a group’s learning and development related to the group’s overall progress toward California’s early learning and development foundations. The Group Report can be used to:

- Identify broad areas of strength and areas that may require further support for a group of children.
- Look at the domain rating marker; half of the children are to the right of the marker and half of the children are to the left of the marker, in terms of number of children.
- Identify the numbers and percentages representing the children at each developmental level.
- Focus instructional planning by looking at the location of all groups of children in relation to the developmental levels.

How should the information in the Group Report *not* be used?

- It should **not** be used to determine eligibility for preschool, transitional kindergarten, or kindergarten.
- It is **not** intended to be the only source of information that teachers or service providers use in understanding children’s development.
- It is **not** intended for use with families.
- It should **not** be used to compare or label children.

For more information about the DRDP (2015) refer to www.desiredresults.us and www.draccessreports.org.

¹ Wherever the term domain is presented, it also refers to the subdomain.

² For more information about California Early Learning and Development Foundations, visit <http://www.cde.ca.gov/sp/cd/re/cddpublications.asp>

³ The domain scale is statistically derived from the distribution of response patterns for the measures in that domain.
